sold through [Aqvani.shop](#)

AI Business Launch Kit 2026 - File 03

150 ready-to-use AI prompts organized by business task. Every prompt is written to work with Claude, ChatGPT, or any comparable AI assistant.

How to use this file:

1. Find the category matching your current task.
2. Copy the prompt exactly as written.
3. Replace every `[VARIABLE]` with your own details.
4. Paste into your AI assistant and review the output - always fact-check, personalize, and add your own judgment before publishing or sending anything.

No prompt in this vault will fabricate statistics, guarantee results, or replace your own decision-making. Treat every output as a strong first draft, not a final answer.

SECTION 1 - BUSINESS IDEAS (15 prompts)

P001 - Idea Brainstorm From Skills

What it does: Generates business idea options based on your existing skills.

When to use it: At the very start, when you don't yet know what to build.

Prompt:

```
Act as a business idea consultant. I have these skills/experience:
[LIST SKILLS]. Suggest 10 AI-assisted business ideas that use these
skills, across a mix of services, digital products, and consulting.
For each, briefly note the target customer and how AI would speed up
delivery. Avoid generic ideas that don't clearly use my listed skills.
```

Variables to customize: `[LIST SKILLS]`

Expected output: A list of 10 tailored idea concepts with target customer and AI-leverage notes.

P002 - Idea Brainstorm From Problem

What it does: Reverses the process - starts from a problem you've noticed and generates business ideas around it.

When to use it: When you've spotted a real problem but don't have an idea yet.

Prompt:

```
Act as a business strategist. I've noticed this problem: [PROBLEM
DESCRIPTION] affecting [WHO IT AFFECTS]. Suggest 5 different
business models that could solve this problem, ranging from a simple
service to a scalable digital product. For each, note the delivery
model and rough startup complexity.
```

Variables to customize: `[PROBLEM DESCRIPTION]`, `[WHO IT AFFECTS]`

Expected output: 5 business model options addressing the same problem.

P003 - Idea Comparison Prompt

What it does: Compares your shortlisted ideas side by side.

When to use it: After you've narrowed down to 2-4 ideas and need to pick one.

Prompt:

Act as an objective business advisor. Compare these business ideas: [IDEA 1], [IDEA 2], [IDEA 3]. Evaluate each on: problem clarity, likely demand, ease of delivery for a beginner, and differentiation potential. Recommend which to pursue first and explain why, while noting this is a starting recommendation, not a guarantee.

Variables to customize: `[IDEA 1]`, `[IDEA 2]`, `[IDEA 3]`

Expected output: A structured comparison and one recommended idea with reasoning.

P004 - Idea Simplification Prompt

What it does: Strips an overly complex idea down to a testable version.

When to use it: When your idea feels too big or vague to start.

Prompt:

Act as a lean-startup advisor. Here's my business idea: [IDEA DESCRIPTION]. Help me simplify it into the smallest testable version I could launch within 7 days, cutting anything not essential to proving the core value proposition.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: A simplified, minimum-viable version of the idea.

P005 - Idea-to-Niche Prompt

What it does: Helps narrow a broad idea into a specific, ownable niche.

When to use it: When your idea targets "everyone" and needs focus.

Prompt:

Act as a niche strategist. My broad business idea is: [BROAD IDEA]. Suggest 5 specific niche angles I could focus on first (e.g., a specific industry, customer size, or use case), and explain why starting narrow could help me get traction faster.

Variables to customize: `[BROAD IDEA]`

Expected output: 5 niche-down options with reasoning.

P006 - AI-Leverage Check Prompt

What it does: Tests whether AI meaningfully improves your idea, or if it's just a buzzword add-on.

When to use it: Before committing - to make sure "AI" isn't just a label.

Prompt:

Act as a critical business consultant. Here's my business idea: [IDEA DESCRIPTION]. Honestly assess where AI genuinely speeds up or improves delivery, versus where it's just a marketing label. Suggest how to strengthen the real AI leverage in this business.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: An honest breakdown of real vs. superficial AI usage, plus improvement suggestions.

P007 - Delivery Model Prompt

What it does: Suggests possible ways to deliver your idea (async, live, subscription, one-time).

When to use it: When you know the idea but not how to structure delivery.

Prompt:

Act as an operations consultant. For this business idea: [IDEA DESCRIPTION], suggest 4 possible delivery models (e.g., one-time project, subscription, self-serve digital product, hybrid), with pros and cons of each for a solo founder just starting out.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: 4 delivery model options with tradeoffs.

P008 - Startup Requirements Checklist Prompt

What it does: Lists what you'd actually need to start.

When to use it: Before committing time - to see the real setup cost.

Prompt:

Act as a startup advisor. For this idea: [IDEA DESCRIPTION], list everything realistically needed to launch a minimum version: tools, skills, time investment, and any upfront costs. Be specific and practical, not aspirational.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: A concrete startup requirements checklist.

P009 - Idea Risk Check Prompt

What it does: Surfaces the biggest risks or blockers in your idea.

When to use it: Before finalizing your decision.

Prompt:

Act as a skeptical advisor. Here's my business idea: [IDEA DESCRIPTION]. What are the 3 most likely reasons this could fail or struggle to get traction? For each, suggest one way to reduce that risk.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: 3 key risks with mitigation suggestions.

P010 - Idea-to-Offer Bridge Prompt

What it does: Turns a rough idea into an initial sellable offer concept.

When to use it: Right after you've chosen your idea, before Module 3.

Prompt:

Act as an offer strategist. Turn this business idea: [IDEA DESCRIPTION] into a one-paragraph sellable offer concept, describing what a customer would actually receive and why it's worth paying for.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: A short, sellable offer concept paragraph.

P011 - Solo-Founder Fit Prompt

What it does: Checks whether an idea is realistic for one person to run.

When to use it: When considering whether to start solo or need help.

Prompt:

Act as an operations advisor. For this idea: [IDEA DESCRIPTION], assess how realistic it is for one person (with AI assistance) to deliver, and flag any part of the process that would likely need outside help or additional tools as it grows.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: A solo-feasibility assessment with growth flags.

P012 - Idea Naming Bridge Prompt

What it does: Suggests a working name to use during early testing (not final branding).

When to use it: Early on, before the full Branding Kit (Module 4).

Prompt:

Act as a naming assistant. Suggest 8 simple working names for this idea: [IDEA DESCRIPTION], suitable for testing with early customers before I invest in full branding.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: 8 simple working name options.

P013 - Seasonal/Timing Fit Prompt

What it does: Flags any timing considerations for launching this idea.

When to use it: When your niche may have seasonal demand patterns.

Prompt:

Act as a market timing advisor. For this idea: [IDEA DESCRIPTION] targeting [TARGET CUSTOMER], are there any likely seasonal or timing patterns I should be aware of when planning my launch? Note where you are inferring versus stating a confirmed pattern.

Variables to customize: `[IDEA DESCRIPTION]`, `[TARGET CUSTOMER]`

Expected output: Timing considerations with confidence flagged.

P014 - Idea Combination Prompt

What it does: Merges two partial ideas into one stronger concept.

When to use it: When you have two "almost right" ideas.

Prompt:

Act as a business strategist. I'm torn between these two ideas: [IDEA A] and [IDEA B]. Suggest 3 ways I could combine elements of both into one stronger, more focused offer.

Variables to customize: `[IDEA A]`, `[IDEA B]`

Expected output: 3 combined concept options.

P015 - First-Week Feasibility Prompt

What it does: Sanity-checks whether an idea can realistically be tested within a week.

When to use it: Right before starting the 7-Day Launch (File 05).

Prompt:

Act as a lean-startup coach. For this idea: [IDEA DESCRIPTION], tell me honestly whether a first testable version could realistically be built and offered to a real customer within 7 days. If not, suggest what to cut to make that possible.

Variables to customize: `[IDEA DESCRIPTION]`

Expected output: A feasibility verdict plus scope-cutting suggestions.

SECTION 2 - MARKET RESEARCH (10 prompts)

P016 - Market Landscape Overview

What it does: Gives a general lay of the land for your market.

When to use it: Early research, before deep competitor analysis.

Prompt:

Act as a market research analyst. Give me an overview of the market for [PRODUCT/SERVICE CATEGORY] serving [TARGET CUSTOMER]. Cover: types of existing solutions, how mature this market seems, and what trends you're aware of. Clearly mark anything you're inferring rather than citing as confirmed fact, and note that I should verify with current sources.

Variables to customize: `[PRODUCT/SERVICE CATEGORY]`, `[TARGET CUSTOMER]`

Expected output: A general market landscape summary with confidence flags.

P017 - Competitor Deep-Dive

What it does: Analyzes a specific competitor in depth.

When to use it: After identifying key competitors.

Prompt:

Act as a competitive analyst. Analyze this competitor: [COMPETITOR NAME/DESCRIPTION]. Cover: their offer, target customer, apparent positioning, and one gap I could exploit. Note that pricing/features should be verified directly since they may have changed.

Variables to customize: `[COMPETITOR NAME/DESCRIPTION]`

Expected output: A structured competitor profile with a positioning gap.

P018 - Market Gap Finder

What it does: Identifies underserved angles in a market.

When to use it: When looking for a differentiation angle.

Prompt:

Act as a market strategist. Based on these competitors/alternatives: [LIST COMPETITORS], identify 3 possible gaps or underserved segments I could target with [MY OFFER TYPE].

Variables to customize: `[LIST COMPETITORS]`, `[MY OFFER TYPE]`

Expected output: 3 potential market gaps.

P019 - Pricing Landscape Prompt

What it does: Helps understand how similar offers are typically priced.

When to use it: Before setting your own prices.

Prompt:

Act as a pricing analyst. For offers similar to [MY OFFER] in the [NICHE] space, describe common pricing structures and models used (not specific numbers, since I'll verify current pricing myself). Suggest what factors would justify pricing at the higher vs. lower end.

Variables to customize: `[MY OFFER]`, `[NICHE]`

Expected output: Pricing structure patterns and value-based reasoning.

P020 - Trend Awareness Prompt

What it does: Surfaces trends relevant to your market, with appropriate caveats.

When to use it: When shaping your positioning around current trends.

Prompt:

Act as a trend analyst. What trends are you aware of (as of your training data) relevant to [MARKET/NICHE]? For each, note your confidence level and flag that I should verify against current 2026 sources before using it in marketing claims.

Variables to customize: `[MARKET/NICHE]`

Expected output: A trend list with confidence and verification flags.

P021 - Market Size Reasoning Prompt

What it does: Helps reason through market size without fabricating numbers.

When to use it: When you want a rough sense of opportunity size.

Prompt:

Act as a market analyst. Help me reason through the rough opportunity size for [OFFER] targeting [TARGET CUSTOMER] by thinking through: how many potential customers likely exist, how often they'd need this, and what would make the addressable market larger or smaller. Do not output a specific market-size number as fact - walk through the reasoning instead.

Variables to customize: `[OFFER]`, `[TARGET CUSTOMER]`

Expected output: A reasoning walkthrough, not a fabricated statistic.

P022 - Industry Language Prompt

What it does: Captures the specific vocabulary your market uses.

When to use it: Before writing marketing copy, so it sounds native to the industry.

Prompt:

Act as an industry insider for [NICHE]. List the specific terms, phrases, and jargon this audience commonly uses to describe [PROBLEM AREA], so I can use authentic language in my marketing instead of generic phrasing.

Variables to customize: `[NICHE]`, `[PROBLEM AREA]`

Expected output: A vocabulary list specific to the niche.

P023 - Regulatory/Constraint Check Prompt

What it does: Flags any obvious constraints or considerations for the niche.

When to use it: For niches with compliance-sensitive customers (health, finance, legal-adjacent).

Prompt:

```
Act as a business advisor. For a business offering [OFFER] to [TARGET CUSTOMER] in the [INDUSTRY] space, what general considerations or constraints should I be aware of (e.g., claims I shouldn't make, data sensitivity)? Note this is general awareness only, not legal advice, and I should consult a professional for specifics.
```

Variables to customize: `[OFFER]`, `[TARGET CUSTOMER]`, `[INDUSTRY]`

Expected output: General awareness flags with a clear non-legal-advice disclaimer.

P024 - Alternative Solutions Mapping Prompt

What it does: Maps out every way customers currently solve the problem, including non-obvious ones.

When to use it: Broader competitive context, including DIY/manual alternatives.

Prompt:

```
Act as a market researcher. For customers dealing with [PROBLEM], map out every way they might currently be solving it - including doing it manually, using a different category of tool, hiring someone informally, or simply not solving it. This should include non-obvious alternatives, not just direct competitors.
```

Variables to customize: `[PROBLEM]`

Expected output: A broad map of direct and indirect alternatives.

P025 - Market Entry Angle Prompt

What it does: Suggests a specific angle to enter a crowded market.

When to use it: When your market has many existing players.

Prompt:

```
Act as a go-to-market strategist. The market for [CATEGORY] already has established players like [EXAMPLES]. Suggest 3 specific entry angles a small new solo business could use to find early traction without competing head-on for the same broad audience.
```

Variables to customize: `[CATEGORY]`, `[EXAMPLES]`

Expected output: 3 focused entry angle strategies.

SECTION 3 - CUSTOMER RESEARCH (10 prompts)

P026 - Deep ICP Builder

What it does: Builds a full Ideal Customer Profile from a rough description.

When to use it: Early customer research (also see Module 2).

Prompt:

Act as a customer research consultant. From this rough target: [ROUGH TARGET DESCRIPTION], build a detailed Ideal Customer Profile covering demographics/firmographics, daily frustrations, current workarounds, and where they spend time online.

Variables to customize: `[ROUGH TARGET DESCRIPTION]`

Expected output: A full ICP.

P027 - Persona Deepening Prompt

What it does: Adds depth and specificity to a thin persona.

When to use it: When your persona still feels generic.

Prompt:

Act as a UX researcher. Here's a rough persona: [PASTE PERSONA]. Make it more specific and human: give them a name, a realistic daily routine, and 3 specific frustrations tied directly to [PROBLEM AREA].

Variables to customize: `[PASTE PERSONA]`, `[PROBLEM AREA]`

Expected output: A more vivid, specific persona.

P028 - Objection Discovery Prompt

What it does: Surfaces likely objections before you even launch.

When to use it: Before writing sales copy.

Prompt:

Act as a sales psychologist. For a customer considering [OFFER], list the top 6 objections or hesitations they're likely to have, ranked by how common they probably are.

Variables to customize: `[OFFER]`

Expected output: A ranked objection list.

P029 - Language Mirroring Prompt

What it does: Rewrites your description using the customer's own words.

When to use it: After collecting raw customer quotes.

Prompt:

Act as a voice-of-customer copywriter. Here are raw quotes from my audience: [PASTE QUOTES]. Rewrite my offer description: [OFFER DESCRIPTION] using language and phrasing closer to how they actually talk about this problem.

Variables to customize: `[PASTE QUOTES]`, `[OFFER DESCRIPTION]`

Expected output: A customer-language version of your offer description.

P030 - Survey Question Generator

What it does: Drafts unbiased survey questions to validate a problem.

When to use it: When you want structured feedback at scale.

Prompt:

Act as a survey design expert. Draft a 6-question survey to validate whether [TARGET CUSTOMER] actually experiences [PROBLEM] and would consider paying for a solution. Avoid leading questions.

Variables to customize: `[TARGET CUSTOMER]`, `[PROBLEM]`

Expected output: A 6-question unbiased survey draft.

P031 - Segment Comparison Prompt

What it does: Compares two potential customer segments.

When to use it: When deciding which segment to focus on first.

Prompt:

Act as a market segmentation consultant. Compare these two customer segments for [OFFER]: [SEGMENT A] and [SEGMENT B]. Assess which is likely easier to reach, has clearer pain around this problem, and would be a better starting focus.

Variables to customize: `[OFFER]`, `[SEGMENT A]`, `[SEGMENT B]`

Expected output: A segment comparison with a starting recommendation.

P032 - Decision-Maker Mapping Prompt

What it does: Identifies who actually makes the buying decision (useful for B2B).

When to use it: When your customer might not be the final decision-maker.

Prompt:

Act as a B2B sales strategist. For [OFFER] sold to [TARGET CUSTOMER/COMPANY TYPE], who is likely the actual decision-maker, who else might influence the decision, and what does each of them care about most?

Variables to customize: `[OFFER]`, `[TARGET CUSTOMER/COMPANY TYPE]`

Expected output: A decision-maker and influencer map.

P033 - Customer Journey Mapping Prompt

What it does: Maps the full journey from problem awareness to purchase.

When to use it: When designing your marketing funnel.

Prompt:

Act as a customer experience strategist. Map the likely journey for [TARGET CUSTOMER] from first noticing [PROBLEM] to purchasing a solution like [OFFER]. Include the key touchpoints and what they'd need to see/feel at each stage to move forward.

Variables to customize: `[TARGET CUSTOMER]`, `[PROBLEM]`, `[OFFER]`

Expected output: A staged customer journey map.

P034 - Interview Synthesis Prompt

What it does: Turns raw interview notes into clear themes.

When to use it: After conducting customer interviews.

Prompt:

Act as a qualitative research analyst. Here are my raw interview notes: [PASTE NOTES]. Synthesize them into the 3-5 clearest recurring themes, with supporting quotes for each.

Variables to customize: `[PASTE NOTES]`

Expected output: Synthesized themes with supporting evidence.

P035 - "Would They Pay" Reality Check Prompt

What it does: Pressure-tests whether the problem is painful enough to pay for.

When to use it: Before building anything further.

Prompt:

Act as a skeptical investor. Based on this problem: [PROBLEM] and evidence I've gathered: [PASTE EVIDENCE/NOTES], honestly assess whether this looks painful enough that people would actually pay to solve it, or whether it's more of a mild annoyance. Explain your reasoning.

Variables to customize: `[PROBLEM]`, `[PASTE EVIDENCE/NOTES]`

Expected output: An honest pressure-test with reasoning, not false reassurance.

SECTION 4 - BRANDING (10 prompts)

P036 - Brand Story Prompt

What it does: Drafts a founder/brand origin story.

When to use it: For your About page or launch content.

Prompt:

Act as a brand storyteller. Using these facts: [FOUNDER BACKGROUND/WHY YOU STARTED THIS], draft a short, honest brand origin story (150-200 words) that explains why [BUSINESS NAME] exists. Do not invent facts or achievements not provided.

Variables to customize: `[FOUNDER BACKGROUND/WHY YOU STARTED THIS]`, `[BUSINESS NAME]`

Expected output: A short, factual brand story.

P037 - Color Palette Direction Prompt

What it does: Suggests a color direction based on brand feeling (for use with a design tool).

When to use it: Before building visual assets.

Prompt:

Act as a brand designer. For a brand that should feel [DESIRED BRAND FEELING] to [TARGET CUSTOMER], suggest a color palette direction (2-3 primary colors, 1-2 accents) and explain why each choice fits the desired feeling.

Variables to customize: `[DESIRED BRAND FEELING]`, `[TARGET CUSTOMER]`

Expected output: A color direction with reasoning (pair with a design tool for actual swatches).

P038 - Logo Concept Brief Prompt

What it does: Drafts a brief you can hand to a design tool or freelancer.

When to use it: Before generating or commissioning a logo.

Prompt:

Act as a brand identity consultant. Write a logo design brief for [BUSINESS NAME], including: brand personality, target audience, 3 visual direction ideas (not final designs), and things to avoid.

Variables to customize: `[BUSINESS NAME]`

Expected output: A usable logo design brief.

P039 - Brand Do's and Don'ts Prompt

What it does: Creates a quick-reference guide for consistent brand communication.

When to use it: Once your voice is defined, to keep it consistent.

Prompt:

Act as a brand consultant. Based on this brand voice: [PASTE BRAND VOICE DESCRIPTION], create a list of 5 "do" and 5 "don't" guidelines for how [BUSINESS NAME] should communicate.

Variables to customize: `[PASTE BRAND VOICE DESCRIPTION]`, `[BUSINESS NAME]`

Expected output: A do/don't communication guide.

P040 - Elevator Pitch Prompt

What it does: Drafts a spoken 15-second pitch.

When to use it: For networking, calls, or in-person conversations.

Prompt:

Act as a pitch coach. Write a 15-second spoken elevator pitch for [BUSINESS NAME], covering who we help, what problem we solve, and what makes us different. Make it sound natural when spoken aloud, not like ad copy.

Variables to customize: `[BUSINESS NAME]`

Expected output: A natural-sounding spoken pitch.

P041 - Brand Name Sanity Check Prompt

What it does: Pressure-tests a chosen name before you commit.

When to use it: After shortlisting names, before finalizing.

Prompt:

Act as a naming consultant. Evaluate this business name: [PROPOSED NAME] for a business offering [OFFER] to [TARGET CUSTOMER]. Assess clarity, memorability, and any likely confusion or negative associations. Note that I still need to independently check domain and trademark availability.

Variables to customize: `[PROPOSED NAME]`, `[OFFER]`, `[TARGET CUSTOMER]`

Expected output: A name evaluation with a reminder to check availability independently.

P042 - Brand Consistency Audit Prompt

What it does: Checks existing content/copy for consistency with your brand voice.

When to use it: Periodically, once you have live content.

Prompt:

Act as a brand editor. Here is my brand voice guide: [PASTE VOICE GUIDE]. Review this piece of content: [PASTE CONTENT] and flag any places it doesn't match the intended voice, with suggested fixes.

Variables to customize: `[PASTE VOICE GUIDE]`, `[PASTE CONTENT]`

Expected output: A consistency audit with specific fixes.

P043 - Mission/Vision Statement Prompt

What it does: Drafts short mission and vision statements.

When to use it: For your About page or internal clarity.

Prompt:

Act as a brand strategist. Based on [BUSINESS NAME]'s purpose: [WHY THIS BUSINESS EXISTS], draft a one-sentence mission statement (what we do now) and a one-sentence vision statement (the change we want to see over time).

Variables to customize: `[BUSINESS NAME]`, `[WHY THIS BUSINESS EXISTS]`

Expected output: A mission and vision statement pair.

P044 - Brand Comparison Prompt

What it does: Compares your brand direction against 1-2 references for differentiation.

When to use it: When you want to avoid blending in with competitors.

Prompt:

Act as a brand strategist. My brand direction: [BRAND DIRECTION DESCRIPTION]. Compare it against how [REFERENCE COMPETITOR/BRAND TYPE] typically presents itself, and suggest 2-3 ways to make mine feel distinct rather than similar.

Variables to customize: `[BRAND DIRECTION DESCRIPTION]`, `[REFERENCE COMPETITOR/BRAND TYPE]`

Expected output: Differentiation suggestions.

P045 - Brand Glossary Prompt

What it does: Creates a short glossary of terms your brand should consistently use (and avoid).

When to use it: To keep messaging consistent across content and offers.

Prompt:

Act as a messaging consultant. For [BUSINESS NAME] offering [CORE OFFER], create a short glossary: 5 terms/phrases we should consistently use to describe our offer, and 5 terms/phrases we should avoid because they're generic, confusing, or overused in this space.

Variables to customize: `[BUSINESS NAME]`, `[CORE OFFER]`

Expected output: A consistent-language glossary.

SECTION 5 - OFFER CREATION (10 prompts)

P046 - Full Offer Draft Prompt

What it does: Generates a complete offer from six core inputs (see Module 3 for the full version).

When to use it: When building your first full offer draft.

Prompt:

Act as a direct-response offer strategist. Using: skill [SKILL], business idea [BUSINESS IDEA], target customer [TARGET CUSTOMER], problem [CUSTOMER PROBLEM], desired outcome [DESIRED OUTCOME], and delivery method [DELIVERY METHOD], draft a complete offer: name, positioning, value proposition, features, benefits, deliverables, pricing considerations, package options, FAQ, and CTA. No results or income guarantees.

Variables to customize: `[SKILL]`, `[BUSINESS IDEA]`, `[TARGET CUSTOMER]`, `[CUSTOMER PROBLEM]`, `[DESIRED OUTCOME]`, `[DELIVERY METHOD]`

Expected output: A complete offer draft.

P047 - Feature-to-Benefit Translator

What it does: Converts a feature list into customer-facing benefits.

When to use it: When your offer description is too feature-heavy.

Prompt:

Act as a conversion copywriter. Here are the features of my offer: [LIST FEATURES]. For each, write the corresponding customer benefit - what it actually means for [TARGET CUSTOMER]'s life or business.

Variables to customize: `[LIST FEATURES]`, `[TARGET CUSTOMER]`

Expected output: A feature-to-benefit table.

P048 - Scope Definition Prompt

What it does: Tightens vague offer scope into something concrete and deliverable.

When to use it: Before quoting or selling, to prevent scope creep.

Prompt:

Act as an operations consultant. My offer is currently described as: [VAGUE OFFER DESCRIPTION]. Rewrite it with a precise, bounded scope: exactly what's included, what's excluded, and the expected timeline.

Variables to customize: `[VAGUE OFFER DESCRIPTION]`

Expected output: A precisely scoped offer definition.

P049 - Guarantee/Risk-Reversal Prompt

What it does: Drafts an honest guarantee or risk-reduction policy.

When to use it: When deciding how to reduce a first-time buyer's risk.

Prompt:

Act as a customer-trust consultant. For this offer: [OFFER DESCRIPTION], suggest 3 possible ways to reduce a first-time buyer's risk (e.g., revision policy, satisfaction check-in, scope guarantee) that I could realistically stand behind. Do not suggest guaranteeing specific results or income.

Variables to customize: `[OFFER DESCRIPTION]`

Expected output: 3 realistic risk-reversal options.

P050 - Upsell/Cross-sell Prompt

What it does: Suggests logical add-ons to your core offer.

When to use it: Once your core offer is defined, to plan future revenue.

Prompt:

Act as an offer strategist. For this core offer: [CORE OFFER DESCRIPTION] sold to [TARGET CUSTOMER], suggest 3 logical upsells or add-ons that would genuinely extend the value, not just pad the price.

Variables to customize: `[CORE OFFER DESCRIPTION]`, `[TARGET CUSTOMER]`

Expected output: 3 genuine upsell/add-on ideas.

P051 - Offer Name Testing Prompt

What it does: Generates alternative names for an existing offer.

When to use it: When your offer name feels flat or unclear.

Prompt:

Act as a naming consultant. My offer currently does: [WHAT THE OFFER DOES]. Suggest 8 alternative names that are clearer or more compelling than a generic description, without overpromising.

Variables to customize: `[WHAT THE OFFER DOES]`

Expected output: 8 alternative offer names.

P052 - Value Stack Prompt

What it does: Lists out everything included to make the value visible.

When to use it: For sales pages or proposals.

Prompt:

Act as a conversion copywriter. Break down this offer: [OFFER DESCRIPTION] into a "what's included" value stack list, describing each component in a way that shows its worth to [TARGET CUSTOMER].

Variables to customize: `[OFFER DESCRIPTION]`, `[TARGET CUSTOMER]`

Expected output: A value stack list.

P053 - Objection-to-FAQ Prompt

What it does: Turns known objections directly into FAQ answers.

When to use it: After running the Objection Discovery prompt (P028).

Prompt:

Act as a customer-support copywriter. Here are common objections to my offer: [LIST OBJECTIONS]. Turn each into a clear, honest FAQ question and answer that addresses the concern directly.

Variables to customize: `[LIST OBJECTIONS]`

Expected output: A set of objection-based FAQ entries.

P054 - Offer Simplification Prompt

What it does: Simplifies an offer with too many components.

When to use it: When your offer is hard to explain in one sentence.

Prompt:

Act as a simplicity-focused strategist. Here's my current offer: [COMPLEX OFFER DESCRIPTION]. Help me simplify it to its core value in one sentence, then rebuild a leaner version with only the essential components.

Variables to customize: `[COMPLEX OFFER DESCRIPTION]`

Expected output: A one-sentence core value statement plus a simplified offer.

P055 - Package Tier Naming Prompt

What it does: Names your Starter/Core/Premium tiers memorably.

When to use it: After building your 3-tier package structure.

Prompt:

Act as a pricing page copywriter. For these 3 offer tiers: [TIER 1 DESCRIPTION], [TIER 2 DESCRIPTION], [TIER 3 DESCRIPTION], suggest memorable tier names (other than "Starter/Core/Premium") that fit [BUSINESS NAME]'s brand voice: [BRAND VOICE].

Variables to customize: `[TIER 1/2/3 DESCRIPTION]`, `[BUSINESS NAME]`, `[BRAND VOICE]`

Expected output: Custom, on-brand tier names.

SECTION 6 - PRODUCT CREATION (15 prompts)

P056 - Digital Product Outline Prompt

What it does: Structures a digital product (guide, template, course) from a topic.

When to use it: At the start of building any digital product.

Prompt:

Act as an instructional designer. I want to create a [PRODUCT TYPE: guide/template/course/planner] about [TOPIC] for [TARGET CUSTOMER]. Draft a complete outline with sections/modules and what each should cover.

Variables to customize: `[PRODUCT TYPE]`, `[TOPIC]`, `[TARGET CUSTOMER]`

Expected output: A structured product outline.

P057 - Worksheet Builder Prompt

What it does: Drafts a fillable worksheet on a specific topic.

When to use it: For workbook-style products.

Prompt:

Act as an instructional designer. Create a fillable worksheet to help [TARGET CUSTOMER] work through [SPECIFIC TASK/DECISION]. Include clear prompts/questions and space indicators for answers.

Variables to customize: `[TARGET CUSTOMER]`, `[SPECIFIC TASK/DECISION]`

Expected output: A ready-to-use worksheet draft.

P058 - Checklist Builder Prompt

What it does: Turns a process into a step-by-step checklist.

When to use it: For checklist-style lead magnets or products.

Prompt:

Act as a process consultant. Turn this process: [PROCESS DESCRIPTION] into a clear, ordered checklist someone could follow without missing steps. Group related steps under short headers.

Variables to customize: `[PROCESS DESCRIPTION]`

Expected output: An ordered, grouped checklist.

P059 - Template Content Drafting Prompt

What it does: Fills in example content for a template product.

When to use it: When building a template that needs a worked example.

Prompt:

Act as a content designer. I'm building a [TEMPLATE TYPE] template for [TARGET CUSTOMER]. Draft one complete example filled in with realistic sample content so buyers can see how to use it.

Variables to customize: `[TEMPLATE TYPE]`, `[TARGET CUSTOMER]`

Expected output: A worked example for the template.

P060 - Prompt Pack Builder Prompt

What it does: Helps you build a prompt pack product (meta - a prompt to build prompts).

When to use it: If your product is itself a set of AI prompts for a niche.

Prompt:

Act as a prompt engineer. Create 10 AI prompts specifically useful for [NICHE/PROFESSION] to accomplish [TASK CATEGORY]. For each, include a name, what it does, and the copy-paste prompt text with clear variables.

Variables to customize: `[NICHE/PROFESSION]`, `[TASK CATEGORY]`

Expected output: A set of ready-to-use niche prompts.

P061 - Course Module Scripting Prompt

What it does: Drafts a lesson script from an outline point.

When to use it: When recording or writing course content.

Prompt:

Act as an instructional designer and scriptwriter. Write a lesson script covering: [LESSON TOPIC], for an audience of [TARGET CUSTOMER] at [BEGINNER/INTERMEDIATE] level. Include an intro hook, the core teaching points, and a short recap.

Variables to customize: `[LESSON TOPIC]`, `[TARGET CUSTOMER]`, level

Expected output: A structured lesson script.

P062 - Quiz/Assessment Builder Prompt

What it does: Builds a diagnostic quiz for a lead magnet or product.

When to use it: For interactive lead magnets (see File 07).

Prompt:

Act as an assessment designer. Create a 7-question diagnostic quiz that helps [TARGET CUSTOMER] identify [PROBLEM/GAP], with scoring logic and a short result description for each outcome band.

Variables to customize: `[TARGET CUSTOMER]`, `[PROBLEM/GAP]`

Expected output: A scored quiz with result bands.

P063 - Calculator Logic Prompt

What it does: Designs the logic for a simple calculator-style product.

When to use it: For calculator lead magnets or tools.

Prompt:

Act as a product designer. I want to build a simple calculator that helps [TARGET CUSTOMER] estimate [WHAT IT CALCULATES]. Outline the inputs needed, the calculation logic in plain terms, and how to present the result clearly.

Variables to customize: `[TARGET CUSTOMER]`, `[WHAT IT CALCULATES]`

Expected output: Calculator logic and input/output structure.

P064 - Product Table of Contents Prompt

What it does: Generates a professional-looking table of contents.

When to use it: For polishing a finished digital product.

Prompt:

Act as a publishing editor. Based on this outline: [PASTE OUTLINE], create a clean, professional table of contents for the finished product, with consistent formatting.

Variables to customize: `[PASTE OUTLINE]`

Expected output: A formatted table of contents.

P065 - Product Editing Pass Prompt

What it does: Reviews a draft for clarity and consistency.

When to use it: Before finalizing any written product.

Prompt:

Act as a professional editor. Review this draft: [PASTE DRAFT] for clarity, repetition, and consistency of tone. Suggest specific edits rather than rewriting the whole thing.

Variables to customize: `[PASTE DRAFT]`

Expected output: Specific, targeted edit suggestions.

P066 - Product Naming Prompt

What it does: Names a finished digital product.

When to use it: Once the product content is done.

Prompt:

Act as a product marketer. This product helps [TARGET CUSTOMER] achieve [OUTCOME] through [FORMAT]. Suggest 10 product name options that are clear about the outcome, not just clever.

Variables to customize: `[TARGET CUSTOMER]`, `[OUTCOME]`, `[FORMAT]`

Expected output: 10 clear, outcome-focused product names.

P067 - Bonus Content Idea Prompt

What it does: Suggests bonus additions to increase perceived value.

When to use it: When finalizing a product bundle.

Prompt:

Act as a product strategist. My core product is: [PRODUCT DESCRIPTION]. Suggest 3 realistic bonus additions that would add genuine value without requiring a huge amount of extra work to create.

Variables to customize: `[PRODUCT DESCRIPTION]`

Expected output: 3 realistic bonus ideas.

P068 - Product Description for Listing Prompt

What it does: Writes the customer-facing description for your store listing.

When to use it: When publishing to Aqvani.shop or another store.

Prompt:

Act as an e-commerce copywriter. Write a product listing description for [PRODUCT NAME], which helps [TARGET CUSTOMER] achieve [OUTCOME]. Include: a hook opening, what's inside, who it's for, and a closing CTA. Keep claims realistic - no guaranteed outcomes.

Variables to customize: `[PRODUCT NAME]`, `[TARGET CUSTOMER]`, `[OUTCOME]`

Expected output: A complete listing description.

P069 - Product FAQ Prompt

What it does: Answers likely buyer questions for a digital product.

When to use it: For your product listing page.

Prompt:

Act as a customer support copywriter. For this digital product: [PRODUCT DESCRIPTION], draft 6 FAQ entries covering format, how to use it, who it's for, and licensing/usage rights (leave a placeholder for my specific license terms).

Variables to customize: `[PRODUCT DESCRIPTION]`

Expected output: A product-specific FAQ list.

P070 - Version/Update Note Prompt

What it does: Drafts a changelog note when you update a product.

When to use it: Whenever you revise a digital product after launch.

Prompt:

Act as a product manager. I updated [PRODUCT NAME] by making these changes: [LIST CHANGES]. Write a short, clear update note for existing customers explaining what changed and why it's useful to them.

Variables to customize: `[PRODUCT NAME]`, `[LIST CHANGES]`

Expected output: A customer-facing update note.

SECTION 7 - CONTENT CREATION (15 prompts)

P071 - Content Pillar Generator

What it does: Defines your 3-5 core content themes.

When to use it: Before building a content calendar.

Prompt:

Act as a content strategist. For [BUSINESS NAME] serving [TARGET CUSTOMER] around [CORE OFFER/PROBLEM], define 4 content pillars (recurring themes) I can create content around consistently.

Variables to customize: `[BUSINESS NAME]`, `[TARGET CUSTOMER]`, `[CORE OFFER/PROBLEM]`

Expected output: 4 content pillars.

P072 - Blog Post Draft Prompt

What it does: Drafts a full blog post from a topic and angle.

When to use it: For long-form content creation.

Prompt:

Act as a content writer for [BUSINESS NAME]. Write a blog post titled around [TOPIC], targeting [TARGET CUSTOMER], covering [KEY POINTS]. Use short paragraphs, subheadings, and end with a clear next step. Do not fabricate statistics or studies.

Variables to customize: `[TOPIC]`, `[TARGET CUSTOMER]`, `[KEY POINTS]`

Expected output: A full blog post draft.

P073 - Carousel Script Prompt

What it does: Structures a multi-slide carousel post.

When to use it: For Instagram/LinkedIn carousel content.

Prompt:

Act as a social content designer. Turn this topic: [TOPIC] into a 7-slide carousel script for [PLATFORM], with a hook slide, 5 value slides, and a CTA slide. Keep each slide to 1-2 short sentences.

Variables to customize: `[TOPIC]`, `[PLATFORM]`

Expected output: A 7-slide carousel script.

P074 - Short-Form Video Script Prompt

What it does: Drafts a script for a short vertical video.

When to use it: For Reels/TikTok/Shorts content.

Prompt:

Act as a short-form video scriptwriter. Write a 30-45 second video script about [TOPIC] for [TARGET CUSTOMER], with an attention-grabbing hook in the first line, 2-3 key points, and a clear CTA at the end.

Variables to customize: `[TOPIC]`, `[TARGET CUSTOMER]`

Expected output: A short-form video script.

P075 - YouTube Long-Form Outline Prompt

What it does: Structures a longer YouTube video.

When to use it: For educational long-form video content.

Prompt:

Act as a YouTube content strategist. Outline a 6-10 minute video about [TOPIC] for [TARGET CUSTOMER], including a hook, 3-4 main sections, and a closing CTA. Note natural points for on-screen text or b-roll.

Variables to customize: `[TOPIC]`, `[TARGET CUSTOMER]`

Expected output: A long-form video outline.

P076 - Content Repurposing Prompt

What it does: Turns one piece of content into multiple formats.

When to use it: To get more mileage from existing content.

Prompt:

Act as a content repurposing specialist. Here's my original content: [PASTE CONTENT]. Repurpose it into: one carousel outline, one short-form video script, and one email, keeping the core message consistent across all three.

Variables to customize: `[PASTE CONTENT]`

Expected output: 3 repurposed content pieces.

P077 - Case Study Draft Prompt

What it does: Structures a case study from real details you provide.

When to use it: After a real client result (never fabricate details).

Prompt:

Act as a case study writer. Using these real details: [PASTE REAL DETAILS/RESULTS], write a case study covering: starting situation, what we did, and the outcome. Use only the facts provided - do not add or invent specifics.

Variables to customize: `[PASTE REAL DETAILS/RESULTS]`

Expected output: A factual case study draft.

P078 - Opinion/POV Content Prompt

What it does: Drafts an opinion-style post to build authority.

When to use it: For authority-building content.

Prompt:

Act as a thought-leadership ghostwriter for [BUSINESS NAME]. Write a short opinion post about [TOPIC/TREND] in [INDUSTRY], sharing a clear point of view based on this actual experience/reasoning: [YOUR REASONING]. Keep it grounded, not clickbait.

Variables to customize: `[BUSINESS NAME]`, `[TOPIC/TREND]`, `[INDUSTRY]`, `[YOUR REASONING]`

Expected output: An opinion-style post draft.

P079 - FAQ-to-Content Prompt

What it does: Turns a customer FAQ into standalone content pieces.

When to use it: When you're short on content ideas but have an FAQ list.

Prompt:

Act as a content strategist. Here are FAQs from my business: [PASTE FAQ LIST]. Turn each into a short standalone content idea (post or video) that answers the question in a useful, non-salesy way.

Variables to customize: `[PASTE FAQ LIST]`

Expected output: Content ideas derived from FAQs.

P080 - Behind-the-Scenes Content Prompt

What it does: Drafts a behind-the-scenes style post.

When to use it: To humanize your brand.

Prompt:

Act as a content writer. Write a short behind-the-scenes post about [WHAT'S HAPPENING - e.g., building the offer, a lesson learned] for [BUSINESS NAME], in a candid, non-polished tone.

Variables to customize: `[WHAT'S HAPPENING]`, `[BUSINESS NAME]`

Expected output: A behind-the-scenes post draft.

P081 - Content Headline Variations Prompt

What it does: Generates multiple headline/hook options for the same content.

When to use it: To A/B test which angle resonates.

Prompt:

Act as a copywriter. For this content about [TOPIC], write 8 alternative headline/hook options, varying the angle: curiosity, direct benefit, contrarian, question, and story-based.

Variables to customize: `[TOPIC]`

Expected output: 8 headline/hook variations.

P082 - Content Simplification Prompt

What it does: Simplifies jargon-heavy content for a beginner audience.

When to use it: When your draft feels too technical.

Prompt:

Act as a plain-language editor. Simplify this content: [PASTE CONTENT] so a total beginner to [TOPIC AREA] could understand it, without losing the key point.

Variables to customize: `[PASTE CONTENT]`, `[TOPIC AREA]`

Expected output: A simplified version of the content.

P083 - Content Calendar Topic Generator

What it does: Generates a batch of topic ideas at once.

When to use it: When planning ahead (see File 07's 30-day calendar).

Prompt:

Act as a content strategist. Generate 15 content topic ideas for [BUSINESS NAME] targeting [TARGET CUSTOMER], spread across these pillars: [LIST PILLARS]. For each, note the pillar and content format.

Variables to customize: `[BUSINESS NAME]`, `[TARGET CUSTOMER]`, `[LIST PILLARS]`

Expected output: 15 topic ideas mapped to pillars and formats.

P084 - CTA Variation Prompt

What it does: Generates multiple calls-to-action for the same piece of content.

When to use it: To match CTA intensity to content type.

Prompt:

Act as a conversion copywriter. For content about [TOPIC] promoting [OFFER/LEAD MAGNET], write 5 CTA variations ranging from soft (engagement-focused) to direct (action-focused).

Variables to customize: `[TOPIC]`, `[OFFER/LEAD MAGNET]`

Expected output: 5 CTA variations across intensity levels.

P085 - Content Accuracy Check Prompt

What it does: Flags any unverified claims in your draft before publishing.

When to use it: As a final check before posting, especially for factual content.

Prompt:

Act as a fact-checking editor. Review this content: [PASTE CONTENT] and flag any statements that sound like statistics, guarantees, or factual claims that I should verify or remove before publishing.

Variables to customize: `[PASTE CONTENT]`

Expected output: A list of claims to verify or remove.

SECTION 8 - SOCIAL MEDIA (15 prompts)

P086 - Platform-Specific Adaptation Prompt

What it does: Adapts one piece of content for multiple platforms.

When to use it: To avoid rewriting from scratch for each platform.

Prompt:

Act as a social media manager. Here's my core content: [PASTE CONTENT]. Adapt it for [PLATFORM 1], [PLATFORM 2], and [PLATFORM 3], matching each platform's typical tone and format conventions.

Variables to customize: `[PASTE CONTENT]`, platforms

Expected output: Platform-adapted versions of the same content.

P087 - LinkedIn Post Prompt

What it does: Drafts a LinkedIn-style post.

When to use it: For professional/B2B audiences.

Prompt:

Act as a LinkedIn content writer. Write a post about [TOPIC] for [BUSINESS NAME]/founder, using short lines, a strong opening hook, and one clear takeaway. Professional but conversational tone.

Variables to customize: `[TOPIC]`, `[BUSINESS NAME]`

Expected output: A LinkedIn post draft.

P088 - Instagram Caption Prompt

What it does: Drafts an Instagram caption with hashtags.

When to use it: For Instagram feed posts.

Prompt:

Act as an Instagram copywriter. Write a caption for a post about [TOPIC] for [BUSINESS NAME], including a hook first line, 2-3 short paragraphs, a CTA, and 10 relevant hashtag suggestions.

Variables to customize: `[TOPIC]`, `[BUSINESS NAME]`

Expected output: A caption with hashtag suggestions.

P089 - Facebook Post Prompt

What it does: Drafts a Facebook-style post, typically more conversational/community-focused.

When to use it: For Facebook page or group posting.

Prompt:

Act as a community-focused copywriter. Write a Facebook post about [TOPIC] for [BUSINESS NAME], in a warm, conversational tone that invites comments or discussion.

Variables to customize: `[TOPIC]`, `[BUSINESS NAME]`

Expected output: A Facebook post draft.

P090 - Twitter/X Thread Prompt

What it does: Structures a short-form thread.

When to use it: For platforms favoring short, sequential posts.

Prompt:

Act as a thread writer. Turn this idea: [IDEA/TOPIC] into a 6-tweet thread, with a strong hook tweet, 4 value tweets, and a closing tweet with a CTA.

Variables to customize: `[IDEA/TOPIC]`

Expected output: A 6-part thread draft.

P091 - Hook Generator Prompt

What it does: Generates attention-grabbing opening lines.

When to use it: For any content needing a strong first line.

Prompt:

Act as a copywriter specializing in attention-grabbing hooks. Write 10 hook options for content about [TOPIC], using a mix of question, bold-statement, and story-opening styles. Do not claim any will "go viral" - just describe them as attention-grabbing.

Variables to customize: `[TOPIC]`

Expected output: 10 attention-grabbing hook options.

P092 - Comment Response Prompt

What it does: Drafts thoughtful responses to comments.

When to use it: For engaging with your audience efficiently.

Prompt:

Act as a community manager for [BUSINESS NAME]. Here's a comment I received: [PASTE COMMENT]. Draft a genuine, non-generic reply that continues the conversation.

Variables to customize: `[BUSINESS NAME]`, `[PASTE COMMENT]`

Expected output: A comment reply draft.

P093 - Social Bio Optimization Prompt

What it does: Refines your existing bio for clarity and conversion.

When to use it: Periodically, or after a positioning change.

Prompt:

Act as a bio copywriter. Here's my current bio: [PASTE CURRENT BIO]. Rewrite it to more clearly state who I help, what I do, and include a clear next step, within [PLATFORM]'s character limit.

Variables to customize: `[PASTE CURRENT BIO]`, `[PLATFORM]`

Expected output: An optimized bio.

P094 - Poll/Engagement Post Prompt

What it does: Drafts a simple engagement-focused post (poll, question, fill-in-the-blank).

When to use it: To boost engagement between value posts.

Prompt:

Act as a social media strategist. Create an engagement post idea (poll, either/or, or fill-in-the-blank) related to [TOPIC AREA] for [TARGET CUSTOMER], designed to spark quick replies.

Variables to customize: `[TOPIC AREA]`, `[TARGET CUSTOMER]`

Expected output: An engagement post concept.

P095 - Story/Ephemeral Content Prompt

What it does: Drafts a sequence for Instagram/Facebook Stories.

When to use it: For day-to-day, lower-effort content.

Prompt:

Act as a social content creator. Draft a 4-slide Story sequence about [TOPIC], including one poll/question sticker idea and one CTA slide.

Variables to customize: `[TOPIC]`

Expected output: A 4-slide Story sequence.

P096 - Testimonial Request Prompt

What it does: Drafts a message asking a satisfied customer for a testimonial.

When to use it: After a positive customer interaction (never fabricate a testimonial).

Prompt:

Act as a customer success copywriter. Write a short, non-pushy message I can send to a customer after [POSITIVE OUTCOME] asking if they'd be willing to share a short testimonial or review.

Variables to customize: `[POSITIVE OUTCOME]`

Expected output: A testimonial request message.

P097 - Social Proof Presentation Prompt

What it does: Formats real testimonials/results for social posting.

When to use it: When you have genuine testimonials to share.

Prompt:

Act as a social media copywriter. Here is a real testimonial I received: [PASTE REAL TESTIMONIAL]. Turn it into a short, well-formatted social post that highlights the specific value mentioned, without adding anything not in the original quote.

Variables to customize: `[PASTE REAL TESTIMONIAL]`

Expected output: A formatted social proof post.

P098 - Content Series Planning Prompt

What it does: Plans a multi-part content series around one theme.

When to use it: For building anticipation and repeat engagement.

Prompt:

Act as a content strategist. Plan a 5-part content series about [BROAD TOPIC] for [TARGET CUSTOMER], with each part building on the last and a clear reason to follow the whole series.

Variables to customize: `[BROAD TOPIC]`, `[TARGET CUSTOMER]`

Expected output: A 5-part series outline.

P099 - Trend-Tie-In Prompt

What it does: Connects your niche to a broader relevant trend responsibly.

When to use it: When you want timely content, without overclaiming.

Prompt:

Act as a content strategist. Here's a trend I'm aware of: [TREND DESCRIPTION]. Suggest how [BUSINESS NAME] could create genuinely relevant content connecting this trend to [NICHE/OFFER], without forcing the connection or overclaiming its relevance.

Variables to customize: `[TREND DESCRIPTION]`, `[BUSINESS NAME]`, `[NICHE/OFFER]`

Expected output: A grounded trend-tie-in content idea.

P100 - Weekly Content Batch Prompt

What it does: Drafts a full week of content in one pass.

When to use it: For efficient weekly content batching.

Prompt:

Act as a content production assistant. Using these 5 topics: [TOPIC 1-5], draft one short social post for each, formatted for [PLATFORM], keeping a consistent voice: [BRAND VOICE].

Variables to customize: `[TOPIC 1-5]`, `[PLATFORM]`, `[BRAND VOICE]`

Expected output: 5 ready-to-edit posts.

SECTION 9 - LEAD GENERATION (10 prompts)

P101 - Lead Magnet Idea Generator

What it does: Generates lead magnet concepts tied to your offer.

When to use it: Before building your first lead magnet (see File 07).

Prompt:

Act as a lead generation strategist. For [BUSINESS NAME] offering [CORE OFFER] to [TARGET CUSTOMER], suggest 8 lead magnet ideas across different formats (checklist, mini-guide, template, quiz) that naturally lead toward the paid offer.

Variables to customize: `[BUSINESS NAME]`, `[CORE OFFER]`, `[TARGET CUSTOMER]`

Expected output: 8 format-varied lead magnet ideas.

P102 - Lead Magnet Content Draft Prompt

What it does: Drafts the actual content of a chosen lead magnet.

When to use it: Once you've picked a lead magnet concept.

Prompt:

Act as an instructional designer. Write the full content for a [FORMAT: checklist/mini-guide/template] lead magnet titled around [TOPIC], for [TARGET CUSTOMER]. Keep it genuinely useful on its own, not just a teaser for the paid offer.

Variables to customize: `[FORMAT]`, `[TOPIC]`, `[TARGET CUSTOMER]`

Expected output: Full lead magnet content.

P103 - Landing Page Copy Prompt

What it does: Drafts copy for a lead magnet opt-in page.

When to use it: When setting up lead capture.

Prompt:

Act as a landing page copywriter. Write opt-in page copy for this lead magnet: [LEAD MAGNET DESCRIPTION], targeting [TARGET CUSTOMER]. Include a headline, 3 bullet benefits, and a CTA button label.

Variables to customize: `[LEAD MAGNET DESCRIPTION]`, `[TARGET CUSTOMER]`

Expected output: Opt-in page copy.

P104 - Cold Outreach First Message Prompt

What it does: Drafts a respectful first outreach message.

When to use it: For initial prospecting (see File 07 for full outreach system).

Prompt:

Act as an ethical outreach copywriter. Write a first-contact message to [PROSPECT TYPE] on [PLATFORM], introducing [BUSINESS NAME] and [OFFER] without being pushy, salesy, or making unverified claims. Keep it short and genuinely relevant to them.

Variables to customize: `[PROSPECT TYPE]`, `[PLATFORM]`, `[BUSINESS NAME]`, `[OFFER]`

Expected output: A respectful first-contact message.

P105 - Follow-Up Sequence Prompt

What it does: Drafts a 3-part follow-up sequence.

When to use it: After an initial outreach message goes unanswered.

Prompt:

Act as an outreach strategist. Write a 3-message follow-up sequence after this first message: [PASTE FIRST MESSAGE], spaced a few days apart, each adding new value or a different angle rather than just "checking in." Keep it non-pushy and easy to say no to.

Variables to customize: `[PASTE FIRST MESSAGE]`

Expected output: A 3-part follow-up sequence.

P106 - Referral Request Prompt

What it does: Drafts a message asking satisfied customers for referrals.

When to use it: After a completed, successful engagement.

Prompt:

Act as a customer relationship copywriter. Write a short, low-pressure message I can send to a happy customer after [COMPLETED ENGAGEMENT] asking if they know anyone else who might benefit from [OFFER].

Variables to customize: `[COMPLETED ENGAGEMENT]`, `[OFFER]`

Expected output: A referral request message.

P107 - Local Business Outreach Prompt

What it does: Drafts outreach specific to local/small businesses.

When to use it: For local-business-focused offers.

Prompt:

Act as a local business outreach specialist. Write a short, friendly message to a local business owner ([BUSINESS TYPE]) introducing [OFFER], referencing something specific and genuine about their business (I'll fill in the specific detail), not a generic template line.

Variables to customize: `[BUSINESS TYPE]`, `[OFFER]`

Expected output: A localized outreach message.

P108 - Lead Qualification Question Prompt

What it does: Drafts qualifying questions to filter serious leads.

When to use it: For your intake form or first response.

Prompt:

Act as a sales operations consultant. Draft 5 qualifying questions to ask a new lead for [OFFER] to quickly understand their need, timeline, and fit, without feeling like an interrogation.

Variables to customize: `[OFFER]`

Expected output: 5 qualifying questions.

P109 - Lead Nurture Content Prompt

What it does: Drafts a short piece of nurture content for leads not yet ready to buy.

When to use it: For leads earlier in the awareness journey.

Prompt:

Act as a lifecycle marketer. Write a short nurture message for leads who downloaded [LEAD MAGNET] but haven't purchased [OFFER] yet, providing one more piece of genuine value and a low-pressure next step.

Variables to customize: `[LEAD MAGNET]`, `[OFFER]`

Expected output: A nurture message.

P110 - Lead Source Tracking Prompt

What it does: Helps you set up simple categories to track where leads come from.

When to use it: When building your lead tracking spreadsheet (see File 09).

Prompt:

Act as an operations consultant. Suggest a simple set of lead-source categories I should track for [BUSINESS NAME] (e.g., social, referral, outreach), and what basic fields I should log for each new lead in a spreadsheet.

Variables to customize: `[BUSINESS NAME]`

Expected output: A lead-tracking category and field structure.

SECTION 10 - SALES (10 prompts)

P111 - Discovery Call Script Prompt

What it does: Drafts a structured discovery call script.

When to use it: Before your first sales calls.

Prompt:

Act as a sales trainer. Write a discovery call script for selling [OFFER] to [TARGET CUSTOMER], including an opening, 5 discovery questions, and a natural transition into presenting the offer.

Variables to customize: `[OFFER]`, `[TARGET CUSTOMER]`

Expected output: A discovery call script.

P112 - Qualification Questions Prompt

What it does: Refines qualification questions specifically for sales calls (distinct from lead-gen intake).

When to use it: To assess fit before proposing.

Prompt:

Act as a sales consultant. Draft 6 qualification questions to ask during a sales conversation for [OFFER], covering budget readiness, timeline, and decision-making authority, phrased conversationally.

Variables to customize: `[OFFER]`

Expected output: 6 conversational qualification questions.

P113 - Proposal Template Prompt

What it does: Drafts a proposal structure for a prospective client.

When to use it: After a qualified discovery call.

Prompt:

Act as a proposal writer. Create a proposal template for [OFFER], including: situation summary, proposed solution, deliverables, timeline, investment section (structure only, I'll add the number), and next steps.

Variables to customize: `[OFFER]`

Expected output: A reusable proposal template.

P114 - Objection Handling Framework Prompt

What it does: Prepares responses to common objections.

When to use it: Before sales conversations, to feel prepared.

Prompt:

Act as a sales coach. For this offer: [OFFER], and these common objections: [LIST OBJECTIONS], draft a calm, non-pushy response to each that acknowledges the concern honestly before addressing it.

Variables to customize: `[OFFER]`, `[LIST OBJECTIONS]`

Expected output: Objection-handling responses.

P115 - Follow-Up After Proposal Prompt

What it does: Drafts a follow-up message after sending a proposal.

When to use it: When a prospect goes quiet after receiving a proposal.

Prompt:

Act as a sales assistant. Write a follow-up message to send a few days after sending this proposal: [PROPOSAL SUMMARY], that's helpful rather than pushy, and makes it easy for them to ask questions or say no.

Variables to customize: `[PROPOSAL SUMMARY]`

Expected output: A follow-up message.

P116 - Sales Page Draft Prompt

What it does: Drafts a full sales page structure and copy.

When to use it: For selling a productized offer or digital product.

Prompt:

Act as a direct-response copywriter. Write a sales page for [OFFER] targeting [TARGET CUSTOMER], including: headline, problem section, solution introduction, benefits, what's included, FAQ, and CTA. Keep claims honest and specific - no guaranteed outcomes.

Variables to customize: `[OFFER]`, `[TARGET CUSTOMER]`

Expected output: A full sales page draft.

P117 - Product Description Generator Prompt

What it does: Writes a shorter product description (distinct from a full sales page).

When to use it: For marketplace listings or shorter contexts.

Prompt:

Act as a product copywriter. Write a concise product description (under 150 words) for [OFFER/PRODUCT], highlighting the core outcome for [TARGET CUSTOMER] and one standout feature.

Variables to customize: `[OFFER/PRODUCT]`, `[TARGET CUSTOMER]`

Expected output: A concise product description.

P118 - Urgency-Without-Manipulation Prompt

What it does: Adds honest urgency to an offer without fake scarcity.

When to use it: For launch or time-bound promotions.

Prompt:

Act as an ethical marketing copywriter. For this promotion: [PROMOTION DESCRIPTION] with a real deadline of [ACTUAL DEADLINE/REASON], write copy that creates genuine urgency without fabricating scarcity or fake countdown pressure.

Variables to customize: `[PROMOTION DESCRIPTION]`, `[ACTUAL DEADLINE/REASON]`

Expected output: Honest urgency-driven copy.

P119 - Post-Sale Confirmation Prompt

What it does: Drafts the message sent right after a purchase.

When to use it: For your order confirmation/thank-you flow.

Prompt:

Act as a customer experience copywriter. Write a post-purchase confirmation message for [OFFER/PRODUCT], thanking the customer, confirming what happens next, and setting clear expectations.

Variables to customize: `[OFFER/PRODUCT]`

Expected output: A post-purchase confirmation message.

P120 - Win-Back/Re-engagement Prompt

What it does: Drafts a message to re-engage a past lead who didn't convert.

When to use it: For lapsed leads worth revisiting.

Prompt:

Act as a lifecycle marketer. Write a short re-engagement message for a lead who showed interest in [OFFER] a while ago but didn't purchase, offering something new or a fresh reason to reconnect, without being pushy.

Variables to customize: `[OFFER]`

Expected output: A re-engagement message.

SECTION 11 - EMAIL MARKETING (10 prompts)

P121 - Welcome Email Prompt

What it does: Drafts the first email a new subscriber/customer receives.

When to use it: For onboarding new list subscribers or customers.

Prompt:

Act as an email copywriter. Write a welcome email for new subscribers to [BUSINESS NAME]'s list, thanking them, setting expectations for what they'll receive, and including one small next step.

Variables to customize: `[BUSINESS NAME]`

Expected output: A welcome email draft.

P122 - Nurture Sequence Prompt

What it does: Drafts a multi-email nurture sequence.

When to use it: For warming up leads before pitching.

Prompt:

Act as an email marketing strategist. Draft a 4-email nurture sequence for leads interested in [OFFER], where each email delivers value first, building toward a natural pitch in the final email.

Variables to customize: `[OFFER]`

Expected output: A 4-email nurture sequence outline with drafts.

P123 - Subject Line Variations Prompt

What it does: Generates multiple subject line options.

When to use it: For every email you send, to A/B test.

Prompt:

Act as an email copywriter. Write 10 subject line options for an email about [EMAIL TOPIC], varying between curiosity, direct benefit, and personal/conversational styles. No clickbait or false claims.

Variables to customize: `[EMAIL TOPIC]`

Expected output: 10 subject line options.

P124 - Promotional Email Prompt

What it does: Drafts a direct sales/promotional email.

When to use it: For launches or promotions.

Prompt:

Act as a direct-response email copywriter. Write a promotional email for [OFFER/PROMOTION] to [TARGET CUSTOMER], with a clear subject line, a strong opening, the offer details, and one clear CTA. Keep claims honest.

Variables to customize: `[OFFER/PROMOTION]`, `[TARGET CUSTOMER]`

Expected output: A promotional email draft.

P125 - Value/Educational Email Prompt

What it does: Drafts a non-promotional, value-first email.

When to use it: Between promotional sends, to build trust.

Prompt:

Act as an email copywriter. Write a short educational email teaching one useful tip about [TOPIC] to [TARGET CUSTOMER], with no hard sell - just a soft mention of [OFFER] at the end if relevant.

Variables to customize: `[TOPIC]`, `[TARGET CUSTOMER]`, `[OFFER]`

Expected output: A value-first educational email.

P126 - Abandoned Interest Follow-Up Email Prompt

What it does: Drafts an email for someone who showed interest but didn't act.

When to use it: For leads who opted in but didn't purchase.

Prompt:

Act as a lifecycle email marketer. Write a follow-up email for someone who downloaded [LEAD MAGNET] but hasn't taken the next step toward [OFFER], addressing a likely hesitation and offering a low-pressure next step.

Variables to customize: `[LEAD MAGNET]`, `[OFFER]`

Expected output: A follow-up email draft.

P127 - Launch Announcement Email Prompt

What it does: Drafts the main "we're live" launch email.

When to use it: On your launch day (see File 05).

Prompt:

Act as a launch copywriter. Write a launch announcement email for [OFFER/PRODUCT] going live today, explaining what it is, who it's for, and a clear CTA to purchase or learn more.

Variables to customize: `[OFFER/PRODUCT]`

Expected output: A launch announcement email.

P128 - Testimonial-Driven Email Prompt

What it does: Builds an email around a real testimonial.

When to use it: Once you have genuine customer feedback.

Prompt:

Act as an email copywriter. Using this real testimonial: [PASTE REAL TESTIMONIAL], write a short email that shares the testimonial in context and connects it back to [OFFER], without adding claims beyond what the testimonial actually says.

Variables to customize: `[PASTE REAL TESTIMONIAL]`, `[OFFER]`

Expected output: A testimonial-centered email.

P129 - Email Segmentation Prompt

What it does: Suggests how to segment your list for more relevant emails.

When to use it: Once your list grows beyond a single group.

Prompt:

Act as an email strategist. For [BUSINESS NAME]'s list, suggest 3 useful ways to segment subscribers (e.g., by interest, engagement, or purchase stage) and how messaging should differ for each segment.

Variables to customize: `[BUSINESS NAME]`

Expected output: A segmentation strategy.

P130 - Email Editing/Shortening Prompt

What it does: Tightens an overly long email draft.

When to use it: When your email draft runs too long.

Prompt:

Act as an email editor. Shorten this email: [PASTE EMAIL DRAFT] to under 150 words while keeping the core message and CTA intact.

Variables to customize: `[PASTE EMAIL DRAFT]`

Expected output: A tightened email draft.

SECTION 12 - CUSTOMER SUPPORT (5 prompts)

P131 - Support Response Draft Prompt

What it does: Drafts a reply to a customer support inquiry.

When to use it: For day-to-day support, always reviewed before sending.

Prompt:

Act as a customer support specialist for [BUSINESS NAME]. Here's a customer message: [PASTE CUSTOMER MESSAGE]. Draft a helpful, clear reply based on this context about my offer/policies: [RELEVANT CONTEXT].

Variables to customize: `[BUSINESS NAME]`, `[PASTE CUSTOMER MESSAGE]`, `[RELEVANT CONTEXT]`

Expected output: A draft support reply for human review before sending.

P132 - Difficult Conversation Prompt

What it does: Helps you respond calmly to a frustrated customer.

When to use it: For complaints or escalations.

Prompt:

Act as a customer relations expert. Here's a frustrated customer message: [PASTE MESSAGE]. Draft a calm, empathetic response that acknowledges their frustration and offers a clear next step, without being defensive.

Variables to customize: `[PASTE MESSAGE]`

Expected output: An empathetic draft response.

P133 - Support FAQ Builder Prompt

What it does: Builds an internal or public FAQ from recurring support questions.

When to use it: After you notice repeated questions.

Prompt:

Act as a support documentation specialist. Here are recurring customer questions I've received: [LIST QUESTIONS]. Turn these into a clean FAQ section with clear, consistent-tone answers.

Variables to customize: `[LIST QUESTIONS]`

Expected output: A structured FAQ section.

P134 - Refund/Policy Explanation Prompt

What it does: Drafts a clear explanation of a policy to a customer.

When to use it: When explaining refund, revision, or scope policies.

Prompt:

Act as a customer support specialist. A customer is asking about [POLICY TOPIC - e.g., refunds, revisions]. Here's my actual policy: [PASTE POLICY]. Draft a clear, friendly explanation using this exact policy, without softening or changing its terms.

Variables to customize: `[POLICY TOPIC]`, `[PASTE POLICY]`

Expected output: A clear policy explanation.

P135 - Support Tone Calibration Prompt

What it does: Adjusts a draft reply's tone to match your brand voice.

When to use it: To keep support responses on-brand.

Prompt:

Act as a brand voice editor. Here's my brand voice: [BRAND VOICE DESCRIPTION]. Rewrite this support reply: [PASTE DRAFT REPLY] to match that voice while keeping the same information.

Variables to customize: `[BRAND VOICE DESCRIPTION]`, `[PASTE DRAFT REPLY]`

Expected output: A tone-adjusted reply.

SECTION 13 - AUTOMATION (5 prompts)

P136 - Workflow Mapping Prompt

What it does: Maps a manual process into an automatable workflow.

When to use it: Before building any automation (see Module 9).

Prompt:

Act as an automation consultant. Here's my current manual process: [DESCRIBE PROCESS STEPS]. Map out which steps could be automated, which need AI assistance, and which should stay fully human, with a suggested trigger and output for the automated version.

Variables to customize: `[DESCRIBE PROCESS STEPS]`

Expected output: A mapped, staged workflow.

P137 - Automation Tool Fit Prompt

What it does: Suggests what type of tool would fit a specific automation need.

When to use it: When deciding what kind of automation tool to learn/use.

Prompt:

Act as an automation advisor. For this workflow: [WORKFLOW DESCRIPTION], what type of no-code automation tool would likely fit best (e.g., form + spreadsheet connector, chat-based, scheduling-based)? Note that I should verify current features/pricing of any specific tool before committing.

Variables to customize: `[WORKFLOW DESCRIPTION]`

Expected output: A tool-type recommendation with a verify-before-use note.

P138 - Automation Testing Checklist Prompt

What it does: Builds a checklist to test a new automation before relying on it.

When to use it: Right after setting up any new workflow.

Prompt:

Act as a QA-minded operations consultant. For this new automation: [WORKFLOW DESCRIPTION], create a testing checklist to confirm it behaves correctly before I rely on it for real customers/leads.

Variables to customize: `[WORKFLOW DESCRIPTION]`

Expected output: A pre-launch testing checklist.

P139 - Human Review Checkpoint Prompt

What it does: Identifies where human review is essential in an automated flow.

When to use it: To avoid over-automating customer-facing steps.

Prompt:

Act as a risk-aware operations consultant. For this automated workflow: [WORKFLOW DESCRIPTION], identify every point where a human should review output before it reaches a customer, and explain the risk of skipping that review.

Variables to customize: `[WORKFLOW DESCRIPTION]`

Expected output: Flagged human-review checkpoints.

P140 - Automation Documentation Prompt

What it does: Documents a finished automation so you (or someone else) can maintain it later.

When to use it: Right after building a workflow, while it's fresh.

Prompt:

Act as a technical writer. Document this automation: [WORKFLOW DESCRIPTION/STEPS], covering: trigger, tools involved, what the AI step does, and how to troubleshoot if it stops working.

Variables to customize: `[WORKFLOW DESCRIPTION/STEPS]`

Expected output: A maintainable workflow doc.

SECTION 14 - BUSINESS OPERATIONS (5 prompts)

P141 - SOP Writer Prompt

What it does: Turns a task you do repeatedly into a written standard operating procedure.

When to use it: For any task you might eventually delegate.

Prompt:

Act as an operations consultant. I regularly do this task: [TASK DESCRIPTION]. Write a clear, step-by-step SOP someone else could follow to do it the same way.

Variables to customize: `[TASK DESCRIPTION]`

Expected output: A written SOP.

P142 - Pricing Review Prompt

What it does: Sanity-checks your current pricing against your positioning.

When to use it: Periodically, or before a price change.

Prompt:

Act as a pricing consultant. My current offer: [OFFER DESCRIPTION] is priced at [CURRENT PRICE STRUCTURE]. Based on the value delivered and positioning, does this seem reasonably aligned, underpriced, or overpriced? Explain your reasoning without asserting a specific "correct" market price as fact.

Variables to customize: `[OFFER DESCRIPTION]`, `[CURRENT PRICE STRUCTURE]`

Expected output: A reasoned pricing sanity check.

P143 - Time Audit Prompt

What it does: Helps identify where your time is going and what to delegate/automate.

When to use it: When you feel overloaded.

Prompt:

Act as a productivity consultant. Here's how I spent my time this week: [LIST TASKS/HOURS]. Identify which tasks are the best candidates for automation, delegation, or elimination, and why.

Variables to customize: `[LIST TASKS/HOURS]`

Expected output: A time-audit breakdown with recommendations.

P144 - Client Onboarding Checklist Prompt

What it does: Builds a repeatable onboarding process for new clients/customers.

When to use it: Once you land your first few customers.

Prompt:

Act as a client experience consultant. For [OFFER], create a step-by-step onboarding checklist covering everything that needs to happen between purchase and the customer's first deliverable.

Variables to customize: `[OFFER]`

Expected output: A client onboarding checklist.

P145 - Weekly Business Review Prompt

What it does: Structures a weekly self-review to stay on track.

When to use it: Every week, once launched (pairs with File 09 dashboard).

Prompt:

Act as a business coach. Here are this week's numbers/notes: [PASTE WEEKLY DATA/NOTES]. Help me structure a short weekly review covering: what worked, what didn't, and one focus area for next week.

Variables to customize: `[PASTE WEEKLY DATA/NOTES]`

Expected output: A structured weekly review.

SECTION 15 - ANALYTICS & OPTIMIZATION (5 prompts)

P146 - Content Performance Review Prompt

What it does: Helps interpret which content is working and why.

When to use it: Periodically, once you have posting history.

Prompt:

Act as a content analyst. Here's a summary of recent content and how it performed: [PASTE PERFORMANCE NOTES]. Identify patterns in what seemed to resonate and suggest what to try more of, being clear this is pattern-spotting from limited data, not a guarantee.

Variables to customize: `[PASTE PERFORMANCE NOTES]`

Expected output: Pattern-based content insights.

P147 - Conversion Funnel Review Prompt

What it does: Reviews your funnel for likely drop-off points.

When to use it: When leads aren't converting to customers.

Prompt:

Act as a conversion optimization consultant. Here's my funnel: [DESCRIBE STEPS FROM LEAD TO CUSTOMER] and rough numbers at each stage: [PASTE NUMBERS IF AVAILABLE]. Identify the most likely drop-off point and 2 hypotheses for why.

Variables to customize: `[DESCRIBE FUNNEL STEPS]`, `[PASTE NUMBERS]`

Expected output: A funnel diagnosis with hypotheses.

P148 - A/B Test Idea Prompt

What it does: Suggests what to test next to improve a specific metric.

When to use it: When you want to iterate systematically.

Prompt:

Act as a growth consultant. I want to improve [SPECIFIC METRIC - e.g., email open rate, landing page conversion]. Suggest 3 specific things I could test, one at a time, with a hypothesis for each.

Variables to customize: `[SPECIFIC METRIC]`

Expected output: 3 testable hypotheses.

P149 - Monthly Business Retrospective Prompt

What it does: Structures a monthly look-back and forward-plan.

When to use it: At the end of each month post-launch.

Prompt:

Act as a business coach. Here's a summary of this month: [PASTE MONTHLY NOTES/NUMBERS]. Help me structure a retrospective covering: biggest win, biggest challenge, what I'll change next month, and one goal for next month.

Variables to customize: `[PASTE MONTHLY NOTES/NUMBERS]`

Expected output: A structured monthly retrospective.

P150 - KPI Dashboard Interpretation Prompt

What it does: Helps you read your own dashboard numbers and decide what to act on.

When to use it: Alongside File 09 (AI Business Dashboard).

Prompt:

Act as a business analyst. Here are my current KPI numbers: [PASTE KPI DATA - content published, leads, conversations, calls, proposals, customers, revenue, conversion rate]. Identify which number is the biggest constraint right now and suggest one focused action to improve it.

Variables to customize: `[PASTE KPI DATA]`

Expected output: A prioritized action suggestion based on your KPIs.

End of Prompt Vault - 150 prompts. Continue to File 04 (Business Workbook) to put these prompts into a structured worksheet flow, or File 05 for your day-by-day launch plan.
