AI Business Launch Kit 2026 - File 05

This file has two systems:

1. **The 7-Day Launch Challenge** - an intensive sprint if you want to move fast.
2. **The 30-Day Business Roadmap** - a steadier, fuller build-out if you'd rather pace yourself.

Pick one. Don't try to run both at once. If you finish the 7-day sprint and want to keep building, the 30-day roadmap's Week 3-4 content works well as your natural next step.

PART A - 7-DAY AI BUSINESS LAUNCH CHALLENGE

DAY 1 - Choose The Business Idea

Goal: Land on one business idea worth testing this week.

After Day 30

You now have a live, launched, AI-assisted business with a defined offer, brand, content system, and lead pipeline. From here:

- Keep running Worksheet 14 (KPI Tracking) weekly
- Use File 06 (AI Tool Stack) to add efficiency as you scale
- Revisit File 03 (Prompt Vault) any time you hit a new task type
- Use the Monthly Business Retrospective prompt (P149) at the end of every month going forward

Progress compounds. The goal of these 30 days was never to have a finished business - it was to have a **real, tested, launched** one you can keep improving.
