MANYCHAT AUTOMATION BLUEPRINT

Pre-Built Comment-to-DM Funnels, FAQ Automation & Lead Capture Flows

A Copy-Paste Automation Toolkit for Beginners

THE PROMISE

You don't need to understand automation logic, code, or complicated software to run a professional chatbot.

This blueprint gives you **ready-built flows, exact messages, and step-by-step build instructions** for ManyChat. You copy the message, replace the bracketed placeholders with your own details, and follow the click-by-click steps to build it inside ManyChat.

Every section in this toolkit answers four questions:

- What do I click?
- What do I type?
- What message should I send?
- What happens next?

No automation theory. No jargon. Just flows you can build today.

Platform note: ManyChat regularly updates its interface, and some features vary by plan (Free vs Pro) and by channel (Instagram vs Facebook Messenger). Wherever a feature might differ, this blueprint says "**Check the current ManyChat interface/options**" so you always confirm against what you're seeing on your own screen.

HOW TO USE THIS BLUEPRINT

1. Every flow shown uses arrows (↓) to show the order of steps — read top to bottom.
2. Every message is inside a **Copy & Paste box** — copy it exactly, then replace the placeholders.
3. Placeholders always look like this: **[NAME]** , **[BUSINESS NAME]** , **[PRODUCT LINK]** . Replace the whole bracket, including the brackets themselves, with your real information.

- 4. **Quick Tip** boxes give a fast piece of practical advice.
- 5. **Pro Tip** boxes give a more advanced (but still simple) improvement.
- 6. **Beginner Mistake** boxes warn you about the most common setup errors.
- 7. Work through the sections in order the first time. After that, use it as a reference library — jump straight to the flow you need.

Placeholder Key (used throughout this blueprint)

PLACEHOLDER	REPLACE WITH
[NAME]	The subscriber's first name (ManyChat can auto-insert this with a system field)
[BUSINESS NAME]	Your business, brand, or shop name
[PRODUCT NAME]	The specific product being promoted
[PRODUCT LINK]	The URL to your product, checkout, or sales page
[FREE RESOURCE]	The name of your freebie (guide, checklist, template)
[BOOKING LINK]	Your calendar/scheduling link (Calendly, etc.)
[EMAIL]	Your business contact email
[DISCOUNT CODE]	Your promo/coupon code
[SERVICE]	The specific service being offered
[PRICE]	Your price or starting price
[SUPPORT EMAIL]	Your customer support email address

Quick Tip: Do one pass through this whole document with "Find & Replace" in mind — decide your real values for every placeholder above before you start building. It turns a 2-hour build into a 20-minute one.

TABLE OF CONTENTS

- 1. Quick Start — Automation Basics & the 10-Minute Setup
- 2. Automation Blueprint Map
- 3. Comment-to-DM Master Funnel
- 4. 10 Ready-to-Use Comment-to-DM Flows

SECTION 1 — QUICK START

What Is ManyChat Automation, In Plain English?

ManyChat is a tool that lets your Instagram or Facebook account **auto-reply** to comments, DMs, and messages — instantly, 24/7, without you typing anything yourself.

Think of it as a receptionist who never sleeps. Someone comments "GUIDE" on your post, and within seconds they get a DM with your free guide, a friendly welcome, and a link to learn more — all without you lifting a finger.

Why Businesses Use Comment-to-DM Automation

- It turns public comments into private conversations (where sales actually happen).
- It captures leads the moment someone shows interest — not hours later when you finally check your phone.
- It answers repetitive questions ("How much?", "How do I buy?") automatically, freeing you up for real conversations.
- It works while you sleep, post content, or serve existing customers.

The Building Blocks (In Simple Language)

TERM	WHAT IT ACTUALLY MEANS
Flow	A pre-planned conversation your bot has with someone — a sequence of messages and buttons.
Trigger	The action that starts a flow. Example: someone comments a keyword, or sends your page a DM.
Action	What the bot does in response — send a message, add a tag, wait, ask a question.
Condition	A simple "if this, then that" rule. Example: if they click "Yes," show offer A; if "No," show offer B.
Keyword	A specific word or phrase (like "GUIDE" or "PRICE") that triggers a flow when someone types or comments it.
User Journey	The full path a person takes through your automation, from their first comment to becoming a customer.
Lead Capture	The step where you collect a name, email, or answer from the subscriber so you can follow up later.

Beginner Mistake: Trying to build one giant flow that handles everything. Start with one goal, one trigger, and one simple path. You can always connect more flows later.

"START HERE" — THE 10-MINUTE SETUP

Follow this sequence for your very first automation. Don't skip steps — each one sets up the next.

Step 1 — Choose ONE goal. Pick a single outcome for this automation: deliver a freebie, capture an email, or answer a common question. One goal only.

Step 2 — Choose your trigger. Decide what starts the flow: a comment keyword on a specific post, any DM containing a keyword, or a button tap on your welcome message. *(Check the current ManyChat interface/options under Automation → Instagram/Facebook → Comments or Keywords to set this up.)*

Step 3 — Create the opening message. Write a short, warm welcome that confirms what they'll get. Keep it under 3 sentences.

Step 4 — Add the CTA. Add one clear button so the person knows exactly what to do next (e.g., "Send Me the Guide").

Step 5 — Add the lead capture step. Ask for an email or a quick qualifying question — only if you need it for this goal.

Step 6 — Add the follow-up. Schedule one follow-up message for 24 hours later, in case they didn't act on the first message.

Step 7 — Test the automation. Use ManyChat's built-in preview/test mode, or comment on your own post from a second account, to run through the entire flow yourself.

Step 8 — Publish. Turn the automation live. Check the current ManyChat interface/options for the exact "Publish" or "Turn On" toggle, as this varies by automation type.

Pro Tip: Save this 10-minute sequence as your personal checklist. Every new automation you ever build in ManyChat follows these same 8 steps — only the messages change.

SECTION 2 — AUTOMATION BLUEPRINT MAP

Every automation in this toolkit — no matter how advanced — follows the same basic shape. Once you understand this map, every flow in this blueprint will make instant sense.

```
graph TD; TRIGGER --> WELCOME_MESSAGE[WELCOME MESSAGE]; WELCOME_MESSAGE --> VALUE_ANSWER[VALUE / ANSWER]; VALUE_ANSWER --> CTA; CTA --> LEAD_CAPTURE[LEAD CAPTURE]; LEAD_CAPTURE --> FOLLOW_UP[FOLLOW-UP]; FOLLOW_UP --> CONVERSION;
```

What Each Step Means

TRIGGER The event that starts everything. A comment keyword, a DM keyword, a button click, or an ad click. Nothing happens until this fires.

WELCOME MESSAGE The first thing the person sees in DM. It should confirm they're in the right place and set a friendly tone. This is your first impression — keep it human.

VALUE / ANSWER Deliver what you promised, or answer what they asked. This is the freebie, the price, the FAQ answer, or the product info.

CTA (Call-to-Action) A single clear button or question that moves the conversation forward. Never leave a message without a next step.

LEAD CAPTURE Where you collect information — usually an email, sometimes a name, sometimes a qualifying answer — so you can follow up even if they go quiet.

FOLLOW-UP An automatic message sent later (hours or days) if the person doesn't respond or doesn't take action. This alone can double your conversion rate.

CONVERSION The final outcome you wanted: a sale, a booking, a signed-up lead, or a resolved question.

Quick Tip: Before building anything in ManyChat, sketch your flow using this 7-step map on paper first. It takes two minutes and prevents most beginner mistakes.

SECTION 3 — COMMENT-TO-DM MASTER FUNNEL

This is the core funnel every flow in this blueprint is built from. Learn this one well — the 10 flows in Section 4 are all variations of it.

```
graph TD; A[USER COMMENTS "GUIDE"] --> B[AUTOMATION TRIGGER]; B --> C[PUBLIC COMMENT REPLY]; C --> D[PRIVATE DM OPENS]; D --> E[WELCOME MESSAGE]; E --> F[DELIVER RESOURCE]; F --> G[ASK PERMISSION / NEXT STEP]; G --> H[COLLECT LEAD]; H --> I[FOLLOW-UP]; I --> J[CTA];
```

Step-by-Step Breakdown

1. Trigger

- **What starts it:** Someone comments the keyword **GUIDE** on a specific Instagram post or Facebook post.
- **Automation action:** Set up a "Comment Growth Tool" / "Comments Automation" on that specific post, with **GUIDE** as the keyword.
- **Where to build it:** Check the current ManyChat interface/options — usually under Automation → Instagram (or Facebook) → New Automation → Comment Growth Tool.
- **Purpose:** Only people genuinely interested in this exact offer enter the flow.

2. Public Comment Reply

- **Automation action:** ManyChat auto-replies publicly under their comment (optional but recommended — it shows social proof to other viewers).

- **Exact message:**

Copy & Paste: Just sent it to your DMs, [NAME]! Check your inbox 

- **Button text:** None needed at this step.
- **Recommended delay:** Instant.
- **Next step:** DM opens automatically.
- **Purpose:** Confirms publicly that the automation worked, encouraging others to comment too.

3. Private DM — Welcome Message

- **Automation action:** Send first DM message.
- **Exact message:**

Copy & Paste: Hey [NAME]! 🙌 Thanks for commenting "GUIDE" — I've got exactly what you're looking for right here.

- **Button text:** "Send It To Me"
- **Recommended delay:** Instant (0 seconds).
- **Next step:** Deliver the resource.
- **Purpose:** Confirms the person is in the right place and builds a warm, human tone before delivering value.

4. Deliver Resource

- **Automation action:** Send the resource link or file.
- **Exact message:**

Copy & Paste: Here's your [FREE RESOURCE] 🎁 [PRODUCT LINK]
Take a look and let me know what you think!

- **Button text:** "Got It, Thanks!"
- **Recommended delay:** Instant after button tap.
- **Next step:** Ask permission for next step.
- **Purpose:** Delivers on the promise immediately — this builds trust and keeps momentum.

5. Ask Permission / Next Step

- **Automation action:** Ask a soft, low-pressure question to continue the conversation.
- **Exact message:**

Copy & Paste: Quick question, [NAME] — would it be okay if I sent over a couple of extra tips that pair well with this? Totally optional!

- **Button text:** "Yes, Send Them" / "No Thanks"
- **Recommended delay:** 5–10 minutes (gives them time to open the resource first).
- **Next step:** If "Yes" → Collect Lead. If "No" → move to a lighter follow-up sequence.
- **Purpose:** Respects their time while opening the door to deeper engagement.

6. Collect Lead

- **Automation action:** Ask for their email (or another qualifying detail).
- **Exact message:**

Copy & Paste: Awesome! What's the best email to send those extra tips to?

- **Button text:** None — this is a text-input question field.
- **Recommended delay:** Instant.
- **Next step:** Confirmation + Follow-up.
- **Purpose:** Captures a lead you can reach even outside of Instagram/Facebook.

7. Follow-Up

- **Automation action:** Send an automated check-in 24–48 hours later.
- **Exact message:**

Copy & Paste: Hey [NAME], just checking in — did the [FREE RESOURCE] help with what you were looking for? Happy to answer any questions!

- **Button text:** "I Have a Question" / "All Good, Thanks!"
- **Recommended delay:** 24 hours after resource delivery.
- **Next step:** Route to FAQ flow or CTA.
- **Purpose:** Re-engages silent leads and often surfaces buying questions.

8. Final CTA

- **Automation action:** Present your paid offer or next logical step.
- **Exact message:**

Copy & Paste: By the way — if you want to go deeper, I put together [PRODUCT NAME] which builds on everything in the [FREE RESOURCE]. Want me to send the details?

- **Button text:** "Yes, Show Me" / "Maybe Later"

- **Recommended delay:** 2–4 days after the freebie delivery.
- **Next step:** Send product info flow (Section 7) or close conversation warmly.
- **Purpose:** Converts an engaged free-resource lead into a paying customer without feeling like a hard sell.

Pro Tip: Never combine steps 6 and 7 (lead capture and follow-up) into the same message. Asking for an email and then instantly pitching feels transactional — space it out.

SECTION 4 — 10 READY-TO-USE COMMENT-TO-DM FLOWS

Each flow below follows the Master Funnel structure. Pick the one matching your goal, copy the messages, and swap in your placeholders.

FLOW 1 — FREE GUIDE

Goal: Deliver a free guide and capture an email. **Trigger Keyword:** GUIDE

Public Comment Response:

Sending it now, [NAME]! Check your DMs 

DM Message 1:

Hey [NAME]! Thanks for asking about my [FREE RESOURCE] guide — here it is 

Button: "Send Me the Guide"

DM Message 2:

Here you go: [PRODUCT LINK] Let me know if you have any questions after reading through it!

Lead Capture:

Want me to send you a couple of bonus tips too? Just drop your email below.

Follow-Up (24 hrs later):

Hey [NAME], did you get a chance to check out the guide? Happy to answer anything that came up.

Final CTA:

If you'd like personalized help applying this, I offer [SERVICE] — want the details?

Simple Flow Map:

COMMENT "GUIDE" → DM → GUIDE LINK → EMAIL → FOLLOW-UP → SERVICE OFFER

FLOW 2 — FREE CHECKLIST

Goal: Deliver a free checklist and warm up the lead. **Trigger Keyword:** CHECKLIST

Public Comment Response:

On its way, [NAME]! 📦

DM Message 1:

Hi [NAME]! Here's the [FREE RESOURCE] checklist you asked about.

Button: "Get the Checklist"

DM Message 2:

Grab it here: [PRODUCT LINK] Print it out or save it — it works best when you can check items off as you go!

Lead Capture:

Want me to send a printable version to your email too?

Follow-Up (2 days later):

Hey [NAME], how far did you get through the checklist? Any items giving you trouble?

Final CTA:

If you want a done-for-you version, check out [PRODUCT NAME] — want a quick look?

Simple Flow Map:

COMMENT "CHECKLIST" → DM → CHECKLIST LINK → EMAIL → FOLLOW-UP → PRODUCT OFFER

FLOW 3 — DISCOUNT COUPON

Goal: Drive sales using a limited-time discount code. **Trigger Keyword:** DISCOUNT

Public Comment Response:

Sent your code, [NAME]! 🎁

DM Message 1:

Hey [NAME]! You're one step away from your discount on [PRODUCT NAME].

Button: "Get My Discount Code"

DM Message 2:

Here's your code: [DISCOUNT CODE] Use it at checkout here: [PRODUCT LINK] It's valid for a limited time, so don't wait too long!

Lead Capture:

Want me to email you a reminder before the code expires? Drop your email below.

Follow-Up (24 hrs later):

Hey [NAME], your code [DISCOUNT CODE] is still active — want any help completing your order?

Final CTA:

Ready to use it? Here's the link again: [PRODUCT LINK]

Simple Flow Map:

COMMENT "DISCOUNT" → DM → CODE + LINK → EMAIL → REMINDER → PURCHASE

FLOW 4 — PRODUCT INFORMATION

Goal: Educate an interested lead about a specific product. **Trigger Keyword:** INFO

Public Comment Response:

Sending details now, [NAME]! 

DM Message 1:

Hi [NAME]! Thanks for your interest in [PRODUCT NAME].

Button: "Tell Me More"

DM Message 2:

Here's a quick overview:  [Benefit 1]  [Benefit 2]  [Benefit 3] Full details here: [PRODUCT LINK]

Lead Capture:

Want me to send a reminder with any launch updates or offers? What's your email?

Follow-Up (2 days later):

Hey [NAME], any questions about [PRODUCT NAME] I can help with?

Final CTA:

Ready to grab it? Here's the link: [PRODUCT LINK]

Simple Flow Map:

COMMENT "INFO" → DM → PRODUCT OVERVIEW → EMAIL → FOLLOW-UP → PURCHASE LINK

FLOW 5 — WEBINAR REGISTRATION

Goal: Register leads for a live or evergreen webinar. **Trigger Keyword:** WEBINAR

Public Comment Response:

Registration link on its way, [NAME]! 

DM Message 1:

Hey [NAME]! Excited you're interested in the [WEBINAR TOPIC] webinar.

Button: "Save My Spot"

DM Message 2:

You're almost in! Register here: [PRODUCT LINK] Date: [DATE] — I'll send you a reminder before it starts.

Lead Capture:

What email should I use to send your reminder and replay link?

Follow-Up (day before):

Hey [NAME], quick reminder — [WEBINAR TOPIC] is tomorrow at [TIME]. See you there!

Final CTA:

Couldn't make it live? Here's the replay: [PRODUCT LINK]

Simple Flow Map:

COMMENT "WEBINAR" → DM → REGISTRATION LINK → EMAIL → REMINDER → REPLAY/OFFER

FLOW 6 — CONSULTATION REQUEST

Goal: Book a discovery call with an interested lead. **Trigger Keyword:** CONSULT

Public Comment Response:

Sending you the details, [NAME]!  17

DM Message 1:

Hi [NAME]! Happy to hear you're interested in a consultation.

Button: "Book My Call"

DM Message 2:

Great — before booking, what are you mainly hoping to get help with?

Lead Capture:

Got it! What's the best email for your calendar invite?

Follow-Up (24 hrs later):

Hey [NAME], just checking — did you get a chance to book a time? Here's the link again:
[BOOKING LINK]

Final CTA:

Ready when you are: [BOOKING LINK]

Simple Flow Map:

COMMENT "CONSULT" → DM → QUALIFYING QUESTION → EMAIL → BOOKING LINK → REMINDER

FLOW 7 — COURSE INFORMATION

Goal: Share course details and nurture toward enrollment. **Trigger Keyword:** COURSE

Public Comment Response:

Info sent, [NAME]! 🎓

DM Message 1:

Hey [NAME]! Thanks for your interest in [PRODUCT NAME].

Button: "Show Me the Course"

DM Message 2:

Here's what's inside: [Module 1] [Module 2] [Module 3] Full curriculum + pricing:
[PRODUCT LINK]

Lead Capture:

Want me to send you a student success story? Drop your email and I'll follow up.

Follow-Up (2 days later):

Hey [NAME], any questions about [PRODUCT NAME] before enrollment closes?

Final CTA:

Ready to join? Enroll here: [PRODUCT LINK]

Simple Flow Map:

COMMENT "COURSE" → DM → CURRICULUM → EMAIL → SUCCESS STORY → ENROLLMENT LINK

FLOW 8 — DIGITAL PRODUCT PROMOTION

Goal: Promote a digital download (ebook, template pack, etc.). **Trigger Keyword:** SHOP

Public Comment Response:

Link sent, [NAME]! 📁

DM Message 1:

Hi [NAME]! Here's what you asked about — [PRODUCT NAME].

Button: "Show Me the Product"

DM Message 2:

[PRODUCT NAME] includes [What's Included]. Grab it here: [PRODUCT LINK]

Lead Capture:

Want early access to future releases? What's your email?

Follow-Up (24 hrs later):

Hey [NAME], still thinking about [PRODUCT NAME]? Happy to answer any questions.

Final CTA:

Here's your link again whenever you're ready: [PRODUCT LINK]

Simple Flow Map:

COMMENT "SHOP" → DM → PRODUCT LINK → EMAIL → FOLLOW-UP → PURCHASE

FLOW 9 — FREE TEMPLATE

Goal: Deliver a free template and build the relationship. **Trigger Keyword:** TEMPLATE

Public Comment Response:

Sent it over, [NAME]! 

DM Message 1:

Hey [NAME]! Here's the [FREE RESOURCE] template you asked about.

Button: "Get the Template"

DM Message 2:

Here's your copy: [PRODUCT LINK] It's fully editable — just make a copy and adjust it to fit your needs.

Lead Capture:

Want a few more templates like this sent to your inbox? What's your email?

Follow-Up (2 days later):

Hey [NAME], how did the template work out for you?

Final CTA:

If you want the full template bundle, check out [PRODUCT NAME] here: [PRODUCT LINK]

Simple Flow Map:

COMMENT "TEMPLATE" → DM → TEMPLATE LINK → EMAIL → FOLLOW-UP → BUNDLE OFFER

FLOW 10 — LEAD MAGNET (GENERAL)

Goal: A flexible flow for any general lead magnet. **Trigger Keyword:** FREE

Public Comment Response:

Just sent it, [NAME]! ✓

DM Message 1:

Hey [NAME]! Thanks for grabbing [FREE RESOURCE].

Button: "Send It Now"

DM Message 2:

Here it is: [PRODUCT LINK] Hope it's genuinely useful — let me know your biggest takeaway!

Lead Capture:

Want more resources like this? Drop your email and I'll keep you posted.

Follow-Up (24–48 hrs later):

Hey [NAME], did [FREE RESOURCE] help? Curious what you thought.

Final CTA:

If you're ready to go further, [PRODUCT NAME] is the natural next step: [PRODUCT LINK]

Simple Flow Map:

COMMENT "FREE" → DM → RESOURCE → EMAIL → FOLLOW-UP → OFFER

Beginner Mistake: Using the same trigger keyword for two different flows. ManyChat can only run one automation per keyword per post — always use a unique keyword for each flow (GUIDE, CHECKLIST, DISCOUNT, etc.).

SECTION 5 — LEAD CAPTURE BLUEPRINTS

Lead capture doesn't have to feel like a boring form. Below are three ready-to-use approaches — pick the one that matches how much information you actually need.

FLOW A — EMAIL CAPTURE (Simple)

Use **this when**: You just need an email address, nothing more.

```
DM
↓
FREE RESOURCE DELIVERED
↓
EMAIL REQUEST
↓
CONFIRMATION
↓
FOLLOW-UP
```

Message 1 (deliver resource):

Here's your [FREE RESOURCE]: [PRODUCT LINK]

Message 2 (email request):

Want me to also email you a copy so you don't lose it? Just drop your email below 📧

Confirmation:

Got it, thanks [NAME]! Sent it to your inbox — check spam if you don't see it in a few minutes.

Follow-Up (next day):

Hey [NAME], did the [FREE RESOURCE] land okay in your inbox?

Quick Tip: Always frame the email ask as a *bonus* ("so you don't lose it," "so I can send extras") rather than a requirement. It feels like a favor, not a form field.

FLOW B — NAME + EMAIL (Standard)

Use this when: You want to personalize follow-ups and need a real name plus email.

```
DM
↓
ASK NAME
↓
ASK EMAIL
↓
DELIVER RESOURCE
↓
THANK YOU
↓
CTA
```

Ask Name:

Hey! Before I send this over — what's your first name so I know who I'm chatting with? 😊

Ask Email:

Nice to meet you, [NAME]! What email should I send [FREE RESOURCE] to?

Deliver Resource:

Perfect — sending it now! Check your inbox in the next couple of minutes: [PRODUCT LINK]

Thank You:

Thanks for hanging in there, [NAME] — hope it's genuinely useful!

CTA:

If you ever want to go deeper on this, just message me "MORE" anytime.

Beginner Mistake: Asking for name AND email in the same message. Split them into two short questions — one ask per message gets a much higher completion rate than a combined form-style message.

FLOW C — LEAD QUALIFICATION (Advanced)

Use this when: You're a service provider or coach and need to understand the lead before responding personally.

```
DM
↓
"WHAT ARE YOU LOOKING FOR?"
↓
SELECT OPTION
↓
BUSINESS TYPE
↓
BUDGET / NEED
↓
CONTACT INFORMATION
↓
SALES FOLLOW-UP
```

Step 1 — What are you looking for?

Hey [NAME]! To point you in the right direction, what are you mainly looking for today?

Buttons: "Pricing Info" / "A Free Consultation" / "General Questions"

Step 2 — Business type (if relevant):

Got it! And what best describes what you do — [Option A], [Option B], or [Option C]?

Step 3 — Budget/need:

Thanks for sharing that. Do you have a rough budget range in mind for [SERVICE], or would you like me to share a few options?

Step 4 — Contact information:

Perfect — last thing, what's the best email or phone number to reach you at?

Step 5 — Sales follow-up:

Thanks, [NAME]! Based on what you've shared, I think we'd be a great fit. I'll follow up personally within 24 hours — talk soon!

Pro Tip: Use ManyChat's tagging feature to tag leads by their answers (e.g., "Budget: High," "Service: Coaching"). Check the current ManyChat interface/options under Tags to set this up — it makes manual follow-up dramatically faster.

SECTION 6 — FAQ AUTOMATION

Set these up as **keyword-triggered replies** so your bot instantly answers the most common questions people ask before buying.

QUESTION	BOT RESPONSE	OPTIONAL CTA
What does this product do?	[PRODUCT NAME] helps you [Main Benefit] — no [Common Pain Point] required.	"See Full Details"
How much does it cost?	[PRODUCT NAME] is [PRICE]. It includes [What's Included].	"View Pricing Page"
How do I purchase?	Easy! Just tap the link here and follow the checkout steps: [PRODUCT LINK]	"Buy Now"
How do I receive the product?	You'll get instant access via email right after checkout — usually within a few minutes.	"Got Another Question?"
Do you offer support?	Yes! Reach us anytime at [SUPPORT EMAIL] or right here in DM.	"Ask a Question"
Is this suitable for beginners?	Absolutely — [PRODUCT NAME] is built to be beginner-friendly, with step-by-step instructions throughout.	"Learn More"
How quickly can I get started?	You can start right away — most people are up and running within 10-15 minutes of purchase.	"Get Started"
What payment methods are accepted?	We accept all major cards and [Other Payment Method — e.g., PayPal]. Check the current ManyChat/checkout interface for the full list.	"View Checkout"
Can I use this for my business?	Yes, [PRODUCT NAME] works great for [Business Type Examples].	"See How It Works"
Do you offer customization?	We offer [Customization Options — or "a done-for-you option"] for an additional [PRICE].	"Ask About Customization"
How can I contact you?	You can message us here anytime, or email [SUPPORT EMAIL] — we usually reply within 24 hours.	"Send a Message"

Example flow for a single FAQ:

QUESTION: "How much does it cost?"

↓

BOT RESPONSE: Price + what's included

↓

OPTIONAL CTA: "View Pricing Page" button

Quick Tip: Set these up as **Default Reply Keywords** in ManyChat so they trigger from *any* DM, not just comments. Check the current ManyChat interface/options under Automation → Keywords to configure this.

SECTION 7 — PRODUCT ENQUIRY AUTOMATION

Use this flow whenever someone messages asking about pricing, value, or details of a specific product.

```
USER: "How much is this?"
  ↓
BOT: PRICE / VALUE INFORMATION
  ↓
BUTTON: "View Product"
  ↓
BUTTON: "Ask a Question"
  ↓
BUTTON: "Talk to Someone"
```

Complete Script:

User message: "How much is this?"

Bot response:

Hi [NAME]! [PRODUCT NAME] is [PRICE] and includes [What's Included]. It's designed to help you [Main Benefit].

Buttons shown:

- "View Product" → sends [PRODUCT LINK]
- "Ask a Question" → opens a free-text reply, routed to FAQ automation
- "Talk to Someone" → routes to Section 9 (Appointment/Consultation Flow)

If "View Product" tapped:

Here's the full page with everything included: [PRODUCT LINK] Let me know if anything's unclear!

If "Ask a Question" tapped:

Sure thing — what would you like to know?

If "Talk to Someone" tapped:

Of course! You can book a quick chat here: [BOOKING LINK]

Pro Tip: Always give price directly instead of saying "send me a DM for pricing." Hiding price information is one of the biggest trust-killers in automated sales conversations.

SECTION 8 — SERVICE ENQUIRY AUTOMATION

Use this for service-based businesses (coaches, agencies, freelancers, consultants).

```
USER: "I need help with social media."
```

```
↓
```

```
WELCOME
```

```
↓
```

```
SERVICE OPTIONS
```

```
↓
```

```
SELECT SERVICE
```

```
↓
```

```
ASK REQUIREMENT
```

```
↓
```

```
LEAD DETAILS
```

```
↓
```

```
BOOK CALL / CONTACT
```

Complete Script:

Welcome:

Hi [NAME]! Happy to help with that. Which of these best matches what you need?

Service Options (buttons):

- "[Service 1 — e.g., Social Media Management]"
- "[Service 2 — e.g., Content Strategy]"
- "[Service 3 — e.g., Ad Management]"

After selecting a service:

Great choice! To point you in the right direction — what's your biggest challenge with [Selected Service] right now?

Ask requirement:

Thanks for sharing that. Are you looking for a one-time project or ongoing support?

Lead details:

Perfect — last thing, what's the best email or phone number to reach you at?

Book call / contact:

All set, [NAME]! You can grab a time that works for you here: [BOOKING LINK] Or if you'd rather I reach out directly, I'll follow up within 24 hours.

Beginner Mistake: Offering more than 3-4 service options as buttons. Too many choices overwhelm the lead and lower completion rates — group similar services together.

SECTION 9 — APPOINTMENT / CONSULTATION FLOW

```
USER INTEREST
  ↓
SERVICE INFORMATION
  ↓
QUALIFICATION
  ↓
BOOKING CTA
  ↓
CONFIRMATION
  ↓
REMINDER
```

Complete Script:

User interest (trigger): User comments/DMs `CONSULT` , `BOOK` , or taps "Book a Call."

Service information:

Hi [NAME]! Happy you're interested in a consultation with [BUSINESS NAME]. Here's what it covers: [Brief Description of What the Call Includes].

Qualification:

Quick question so I can prep properly — what's the main thing you're hoping to get out of our chat?

Booking CTA:

Perfect. Grab a time that works for you here: [BOOKING LINK]

Confirmation:

You're all set, [NAME]! Your call for [SERVICE] is booked for [DATE]. Looking forward to it!

Reminder (sent 24 hours before):

Hey [NAME], quick reminder — your consultation about [SERVICE] is coming up on [DATE]. See you then! Need to reschedule? Just reply here.

Quick Tip: If your booking tool (Calendly, etc.) supports it, connect it to trigger the confirmation and reminder messages automatically. Check the current ManyChat interface/options for available integrations, as these change over time.

SECTION 10 — FOLLOW-UP AUTOMATIONS

Follow-ups should feel helpful, not spammy. The rule of thumb: **each follow-up should add something new** — a helpful nudge, a new angle, or an easy out — never just "still there?"

#	SITUATION	TIMING	TRIGGER	MESSAGE	CTA
1	No Response	24 hrs after last message	No reply to previous DM	Hey [NAME], just floating this back up in case it got buried — still happy to help with [Topic]!	"Yes, Still Interested" / "No Thanks"
2	Downloaded Freebie	24–48 hrs after delivery	Resource link opened/delivered	Hey [NAME], did [FREE RESOURCE] help with what you were looking for?	"It Helped!" / "I Have a Question"
3	Asked About Product	2 days after product info sent	Product enquiry flow completed, no purchase	Hi [NAME], any questions about [PRODUCT NAME] I can help clear up?	"Yes, I Have One" / "Ready to Buy"
4	Asked About Price	24 hrs after price sent	Price shared, no reply	Hi [NAME], just checking in on the pricing for [PRODUCT NAME] — happy to break it down further.	"Explain More" / "I'll Take It"
5	Clicked But Didn't Purchase	24 hrs after link click	Link click tracked, no purchase confirmation	Hey [NAME], noticed you checked out [PRODUCT NAME] — any questions holding you back?	"Ask a Question" / "Get [DISCOUNT CODE]"
6	Requested Consultation	24 hrs after booking link sent	Booking flow started, not completed	Hi [NAME], still want to grab a time for your consultation? Here's the link again: [BOOKING LINK]	"Book Now"
7	Started Conversation	1 hr after first message with no second reply	First DM sent, no button tap	Hey [NAME], just want to make sure this came through okay — happy to help with anything!	"Continue"
8	Abandoned Conversation	3 days after conversation stalls	No activity for 72 hours	Hi [NAME], hope things have been busy! Wanted to check if you still have questions about [Topic] or if now isn't the right time.	"Still Interested" / "Not Right Now"
9	Interested Lead	3–5 days after showing interest	Positive reply/tag applied, no conversion	Hey [NAME], following up on [Topic] — I think [PRODUCT NAME/SERVICE] could really help with [Their Goal]. Want the details again?	"Yes, Send Details"
10	Existing Customer	7–14 days after purchase	Purchase tag applied	Hi [NAME], hope you're loving [PRODUCT NAME] so far! Let me know if you need anything, or if you'd like to hear about [Related Product/Upgrade].	"I Need Help" / "Tell Me More"

Pro Tip: Set a hard limit of 3 follow-ups per unresponsive lead. After that, send one final "no-pressure" message (Section 12 has a ready-made one) and let the automation stop — more than that reads as spam and risks Instagram/Facebook restricting your account.

Beginner Mistake: Sending follow-ups at odd hours (e.g., 3 AM) because "24 hours later" landed there. Check the current ManyChat interface/options for delay/scheduling settings that let you restrict delivery to reasonable hours.

SECTION 11 — KEYWORD AUTOMATION LIBRARY

Keywords are the single word or phrase someone types to trigger a flow. Use this library to plan yours.

KEYWORD	INTENDED PURPOSE	TRIGGER IDEA	RECOMMENDED RESPONSE
GUIDE	Deliver a free guide	Comment on a guide-promo post	Send guide link + ask permission for more tips
FREE	General lead magnet delivery	Comment on any freebie post	Send resource + capture email
INFO	Share product details	Comment/DM asking about a product	Send overview + product link
PRICE	Answer pricing questions	DM/comment containing "price" or "cost"	Send price + what's included
LINK	Send a direct product/sales link	Comment asking "where do I buy"	Send purchase link directly
BUY	Route to purchase	Comment/DM showing buying intent	Send checkout link + support offer
DISCOUNT	Deliver a promo code	Comment on a sale/promo post	Send code + expiry reminder
COURSE	Share course curriculum	Comment on course-related content	Send curriculum + enrollment link
HELP	Route to support or FAQ	DM containing "help"	Trigger FAQ menu
BOOK	Start booking flow	Comment/DM about appointments	Send booking link
DEMO	Share a product demo	Comment asking to see the product in action	Send demo video/link
START	Kick off onboarding or welcome	First DM ever, or "get started" button	Trigger main welcome flow
CHECKLIST	Deliver a checklist freebie	Comment on checklist-promo post	Send checklist + email capture
TEMPLATE	Deliver a template freebie	Comment on template-promo post	Send template + related offer
OFFER	Share a special offer	Comment/DM asking about deals	Send current offer + CTA
MORE	Continue an earlier conversation	Reply to a previous automated message	Resume flow at last step
DETAILS	Provide fuller product/service info	Comment/DM asking "tell me more"	Send detailed breakdown

KEYWORD	INTENDED PURPOSE	TRIGGER IDEA	RECOMMENDED RESPONSE
JOIN	Start a signup/membership flow	Comment on a community/membership post	Send join link + welcome
WEBINAR	Register for a webinar	Comment on webinar-promo post	Send registration link
CONSULT / CONSULTATION	Start consultation booking	Comment/DM requesting a call	Send qualifying question + booking link
SHOP	Send storefront/catalog link	Comment/DM on e-commerce post	Send shop link
SUPPORT	Route to customer service	DM containing "support" or "issue"	Trigger support menu
REFUND	Handle refund questions	DM containing "refund"	Send refund policy + support email
YES	Confirm interest / move flow forward	Button tap or typed "yes"	Continue to next flow step
NO	Decline / exit flow gracefully	Button tap or typed "no"	Send polite close-out message
STOP	Opt out of messages	DM containing "stop" or "unsubscribe"	Confirm opt-out (required for compliance)
PRICING	Same as PRICE, alternate phrasing	DM/comment containing "pricing"	Send price info
CONTACT	Provide direct contact info	DM asking "how do I reach you"	Send [SUPPORT EMAIL] + DM option
SAMPLE	Share a sample/preview	Comment/DM asking to see a sample	Send sample link
NEWSLETTER	Sign up for email list	Comment/DM about updates	Capture email for list
REVIEW	Request or share testimonials	Comment/DM about social proof	Send testimonials or ask for a review
APPLY	Start an application flow	Comment on a hiring/program post	Send application form/link

Quick Tip: Keep keywords to a single, obvious word wherever possible. ManyChat can match "contains" a keyword, so "GUIDE" will trigger on comments like "send me the GUIDE please!" — check the current ManyChat interface/options for exact match vs. "contains" settings.

SECTION 12 — 20 COPY-AND-PASTE MESSAGE TEMPLATES

Copy & Paste — Welcome Hey [NAME]! 🙌 Thanks for reaching out to [BUSINESS NAME] — how can I help you today?

Copy & Paste — Thank You Thanks so much, [NAME]! Really appreciate you taking the time.

Copy & Paste — Freebie Delivery Here's your [FREE RESOURCE] 🎁 [PRODUCT LINK] — let me know what you think once you've had a look!

Copy & Paste — Product Promotion Hey [NAME], just wanted to flag [PRODUCT NAME] in case it's useful — it helps with [Main Benefit]. Details here: [PRODUCT LINK]

Copy & Paste — Lead Capture (Email) What's the best email to send that over to?

Copy & Paste — FAQ Opener Great question! Here's the answer: [Short Answer]. Let me know if you'd like more detail.

Copy & Paste — Price Enquiry [PRODUCT NAME] is [PRICE] and includes [What's Included]. Want the full details?

Copy & Paste — Discount Offer Here's [DISCOUNT CODE] for [Discount %] off [PRODUCT NAME] — valid until [Expiry Date]: [PRODUCT LINK]

Copy & Paste — Follow-Up (Soft) Hey [NAME], just checking in — any questions I can help with on [Topic]?

Copy & Paste — Reminder Quick reminder about [Offer/Appointment] — let me know if you need anything before then!

Copy & Paste — Consultation Invite Want to hop on a quick call to chat about [SERVICE]? Grab a time here: [BOOKING LINK]

Copy & Paste — Booking Confirmation You're all set, [NAME]! Your [SERVICE] session is confirmed for [DATE].

Copy & Paste — Customer Support Sorry for the trouble, [NAME]! Can you tell me a bit more about what's happening so I can help sort it out?

Copy & Paste — Re-Engagement Hey [NAME], it's been a little while! Still relevant for you these days, or has your situation changed?

Copy & Paste — Closing / No-Pressure No worries at all if now isn't the right time, [NAME] — I'll leave this here. Just message me whenever you're ready!

Copy & Paste — Abandoned Conversation Hi [NAME], noticed our chat got cut off — happy to pick back up whenever works for you.

Copy & Paste — Order Confirmation You're in, [NAME]! 🎉 Your order for [PRODUCT NAME] is confirmed — check [EMAIL] for full access details.

Copy & Paste — Upsell / Cross-Sell Since you're already using [PRODUCT NAME], you might also love [Related Product] — want a quick look?

Copy & Paste — Testimonial Request Hi [NAME], so glad [PRODUCT NAME] worked out for you! Would you mind sharing a quick review? It really helps others considering it too.

Copy & Paste — Event/Webinar Reminder Hey [NAME], quick reminder — [WEBINAR TOPIC] starts [DATE] at [TIME]. See you there!

Quick Tip: Every message above uses natural, conversational phrasing on purpose. Avoid corporate phrases like "Dear valued customer" or "We regret to inform you" — they instantly signal "bot" and reduce trust.

SECTION 13 — BUTTON & CTA LIBRARY (50+ CTAs)

Lead Generation

1. Get the Free Guide
2. Send Me the Checklist
3. Get Started
4. Grab My Freebie
5. Yes, Send It Over
6. I Want This
7. Claim My Spot
8. Show Me How
9. Get Instant Access
10. Send Me the Link

Sales

11. View Product
12. Get the Offer
13. Buy Now
14. See What's Included
15. Shop Now
16. Get [PRODUCT NAME]
17. Claim My Discount
18. See Pricing
19. Add to Cart
20. Unlock This Deal

Qualification

21. I'm Interested
22. Tell Me More
23. I Need Help
24. Not Right Now

- 25. Maybe Later
- 26. Yes, That's Me
- 27. That's Not Quite It
- 28. I Have a Question
- 29. Sounds Good
- 30. Learn More First

Booking

- 31. Book a Call
- 32. Schedule a Consultation
- 33. Check Availability
- 34. Reserve My Spot
- 35. Pick a Time
- 36. Book Now
- 37. Save My Seat
- 38. Register Now
- 39. Confirm My Booking
- 40. Reschedule

Support

- 41. Ask a Question
- 42. Contact Support
- 43. Get Help
- 44. Talk to Someone
- 45. Report an Issue
- 46. Track My Order
- 47. Request a Refund
- 48. Chat With Us
- 49. Give Feedback
- 50. Still Need Help?

Follow-Up & Re-Engagement

- 51. Yes, Still Interested
- 52. Remind Me Later
- 53. Continue Where I Left Off
- 54. Show Me Again

55. I'll Take It

Pro Tip: Keep every button under 20 characters where possible — ManyChat buttons truncate long text on mobile, and short buttons are easier to tap and read at a glance.

SECTION 14 — COMPLETE FLOW BLUEPRINTS

Five full end-to-end automations, combining everything from earlier sections into single deployable builds.

BLUEPRINT 1 — Comment → Freebie → Lead Capture → Follow-Up

```
TRIGGER: Comment "FREE" on post
↓
CONDITION: Is this their first comment on this post?
↓
MESSAGE: "Hey [NAME]! Sending your [FREE RESOURCE] now 🎁"
↓
BUTTON: "Send It to Me"
↓
ACTION: Deliver resource link
↓
MESSAGE: "Want a couple bonus tips too?"
↓
LEAD CAPTURE: Ask for email
↓
FOLLOW-UP (24 hrs): "Did the resource help, [NAME]?"
↓
CTA: Introduce [PRODUCT NAME] as the next step
```

Best for: Growing an email list from organic content while delivering genuine value first.

BLUEPRINT 2 — Comment → Product Information → FAQ → Sales CTA

```
TRIGGER: Comment "INFO" on product post
↓
CONDITION: New subscriber vs returning subscriber
↓
MESSAGE: "Hi [NAME]! Here's what [PRODUCT NAME] includes..."
↓
BUTTON: "Tell Me More" / "I Have a Question"
↓
ACTION: If "I Have a Question" → route to FAQ menu (Section 6)
↓
MESSAGE: FAQ answer delivered
↓
LEAD CAPTURE: "Want updates on new offers? What's your email?"
↓
FOLLOW-UP (2 days): "Any other questions about [PRODUCT NAME]?"
↓
CTA: "[PRODUCT LINK] – ready when you are!"
```

Best for: Product launches where buyers usually have a few questions before purchasing.

BLUEPRINT 3 — Comment → Lead Qualification → Consultation

```
TRIGGER: Comment "CONSULT" on service post
↓
CONDITION: Business owner or individual?
↓
MESSAGE: "Hi [NAME]! What are you mainly hoping to get help with?"
↓
BUTTON: [Service options based on your offers]
↓
ACTION: Tag lead by selected service
↓
MESSAGE: "Got it – what's your timeline for getting started?"
↓
LEAD CAPTURE: Ask for email/phone
↓
FOLLOW-UP (24 hrs): "Still want to grab a time? Here's the link again."
↓
CTA: "[BOOKING LINK]"
```

Best for: Coaches, consultants, and agencies that need context before a sales call.

BLUEPRINT 4 — Keyword → FAQ → Product Recommendation

```
TRIGGER: DM contains keyword "HELP" or "PRICE"
↓
CONDITION: Which keyword matched?
↓
MESSAGE: Relevant FAQ answer (Section 6)
↓
BUTTON: "That Answers It" / "I Have Another Question"
↓
ACTION: If satisfied → recommend related product
↓
MESSAGE: "Based on that, [PRODUCT NAME] might be a great fit – want a look?"
↓
LEAD CAPTURE: "What's your email so I can send full details?"
↓
FOLLOW-UP (2 days): "Any questions about [PRODUCT NAME]?"
↓
CTA: "[PRODUCT LINK]"
```

Best for: Businesses fielding lots of repetitive DM questions that could lead to a sale.

BLUEPRINT 5 — Comment → Discount → Purchase → Follow-Up

```
TRIGGER: Comment "DISCOUNT" on promo post
↓
CONDITION: Is the promotion still active?
↓
MESSAGE: "Hey [NAME]! Here's your code: [DISCOUNT CODE]"
↓
BUTTON: "Shop Now"
↓
ACTION: Send checkout link
↓
MESSAGE: "Code expires [Expiry Date] – don't wait too long!"
↓
LEAD CAPTURE: "Want a reminder before it expires? What's your email?"
↓
FOLLOW-UP (24 hrs): "Still want to use [DISCOUNT CODE]? Happy to help with checkout."
↓
CTA: "[PRODUCT LINK]"
```

Best for: Time-limited sales, seasonal promotions, and flash discounts.

Pro Tip: Reuse these five blueprints as templates for every new campaign — swap the keyword, product, and messages, and you have a fully built automation in under 15 minutes.

SECTION 15 — MANYCHAT BUILD CHECKLIST

BEFORE BUILDING

- ☐ Choose automation goal
- ☐ Choose trigger
- ☐ Prepare message copy
- ☐ Prepare freebie/link
- ☐ Prepare CTA
- ☐ Decide what lead information is required

WHILE BUILDING

- ☐ Add trigger
- ☐ Add welcome message
- ☐ Add button
- ☐ Add condition (if needed)
- ☐ Add action (send message, tag, etc.)
- ☐ Add delay before follow-up
- ☐ Add follow-up message

BEFORE PUBLISHING

- ☐ Test the trigger yourself (comment/DM from a second account)
- ☐ Test every button
- ☐ Test every link (make sure none are broken or placeholders)
- ☐ Test lead capture (does the info actually get saved?)
- ☐ Check spelling and placeholder replacement ([NAME] typos are common!)
- ☐ Test on mobile — most subscribers will see this on a phone
- ☐ Run through the complete conversation start to finish, one time, as if you were the customer

Beginner Mistake: Publishing without testing the full path end-to-end. A single broken button early in the flow means nobody ever reaches your offer — always walk the entire conversation yourself first.

SECTION 16 — TROUBLESHOOTING GUIDE

PROBLEM	POSSIBLE REASON	SIMPLE FIX
Trigger isn't firing	Keyword doesn't match exactly, or automation isn't turned on	Double-check the keyword spelling/settings, and confirm the automation toggle is switched on. Check the current ManyChat interface/options.
Comment isn't detected	The automation is attached to the wrong post, or comment doesn't contain the exact keyword	Confirm the automation is linked to the correct post, and that your keyword matches "contains" rules
DM isn't being delivered	Recipient hasn't messaged your page in the required window (24-hour messaging policy), or automation is paused	Ask them to send any message first, or check current messaging window policies in ManyChat/Meta's rules
Button doesn't work	The button isn't linked to an action, or the flow it points to was deleted	Re-open the button settings and confirm it points to an active message or flow
Link isn't opening	Broken URL, missing "https://", or placeholder wasn't replaced	Copy the URL directly into a browser to test it before publishing
Email isn't captured	The input field isn't set to save into a custom field, or the question type is wrong	Check the current ManyChat interface/options to confirm the field is set to "email" type and mapped to a custom field
Automation stops halfway	A missing action, broken condition, or unpublished draft step	Walk through each step in the builder and confirm every box is connected — look for a step with no outgoing connection
User doesn't receive follow-up	Delay wasn't set correctly, or the user already completed/exited the flow	Confirm the delay setting and check whether a condition earlier in the flow accidentally excluded them
Duplicate messages	Two automations are triggering on the same keyword/post	Search your automations list for overlapping triggers and disable the duplicate
Wrong keyword triggering wrong flow	Similar keywords overlapping (e.g., "PRICE" also contains "PRICING")	Use more distinct keywords, or set the match type to "Exact Match" — check the current ManyChat interface/options
Flow published incorrectly	Draft changes weren't saved or published before testing	Always click "Publish" (not just "Save") after editing, and refresh before re-testing

Quick Tip: When something breaks, test the smallest possible piece first — one message, one button — instead of retesting the whole flow. It's faster to isolate the problem.

SECTION 17 — AUTOMATION STRATEGY CHEAT SHEET

TERM	ONE-LINE EXPLANATION
Trigger	The event that starts an automation (comment, DM, keyword, button tap).
Action	What the bot does next (send message, wait, tag, ask a question).
Condition	An if/then rule that sends different people down different paths.
Delay	A pause between messages so the conversation feels natural, not instant-spam.
Button	A clickable option that moves the subscriber to the next step.
CTA	The specific action you want the subscriber to take right now.
Custom Field	A saved piece of subscriber data (name, email, answer) you can reuse later.
Tag	A label attached to a subscriber so you can segment and target them later.
Follow-Up	An automatic message sent later if no action was taken.
Conversion	The end goal achieved — a sale, booking, or qualified lead.

Save or print this page — it's your one-page reference for every term used throughout this blueprint.

SECTION 18 — INDUSTRY EXAMPLES

The same automation concept adapts to almost any business. Here's how it looks across common industries.

Coaches

```
TRIGGER: Comment "COACHING" on a transformation post
  → MESSAGE: "Hi [NAME]! Curious what's the biggest thing you're hoping to
change right now?"
  → LEAD CAPTURE: Email + goal
  → CTA: "[BOOKING LINK] – let's talk about your goals"
```

Consultants

```
TRIGGER: DM keyword "CONSULT"
  → MESSAGE: "Hi [NAME]! What area are you looking for advice on – [Area A] or
[Area B]?"
  → LEAD CAPTURE: Business type + email
  → CTA: "[BOOKING LINK] – quick strategy call"
```

Real Estate

```
TRIGGER: Comment "LISTING" on a property post
  → MESSAGE: "Hi [NAME]! Here are the details on [Property Name]: [PRODUCT
LINK]"
  → LEAD CAPTURE: Budget range + email
  → CTA: "Want to schedule a viewing? [BOOKING LINK]"
```

Fitness

```
TRIGGER: Comment "PLAN" on a workout post
  → MESSAGE: "Hey [NAME]! Sending you the free [FREE RESOURCE] workout plan
now."
  → LEAD CAPTURE: Fitness goal + email
  → CTA: "Ready for a personalized plan? Check out [PRODUCT NAME]: [PRODUCT
LINK]"
```

Beauty

```
TRIGGER: Comment "BOOK" on a before/after post
  → MESSAGE: "Hi [NAME]! Which service are you interested in – [Service A] or [Service B]?"
  → LEAD CAPTURE: Preferred date + phone/email
  → CTA: "[BOOKING LINK] – grab your spot"
```

Restaurants

```
TRIGGER: Comment "MENU" on a food post
  → MESSAGE: "Hey [NAME]! Here's our full menu: [PRODUCT LINK]"
  → LEAD CAPTURE: Email for special offers
  → CTA: "Want to reserve a table? [BOOKING LINK]"
```

E-commerce

```
TRIGGER: Comment "SHOP" on a product post
  → MESSAGE: "Hi [NAME]! Here's [PRODUCT NAME]: [PRODUCT LINK]"
  → LEAD CAPTURE: Email for order updates
  → CTA: "Use [DISCOUNT CODE] for [Discount %] off at checkout!"
```

Digital Products

```
TRIGGER: Comment "GUIDE" on a tips post
  → MESSAGE: "Sending your [FREE RESOURCE] now, [NAME]!"
  → LEAD CAPTURE: Email
  → CTA: "If you want the full system, check out [PRODUCT NAME]: [PRODUCT LINK]"
```

Agencies

```
TRIGGER: DM keyword "SERVICES"
  → MESSAGE: "Hi [NAME]! We help businesses with [Service Area]. What's your biggest priority right now?"
  → LEAD CAPTURE: Business name + email
  → CTA: "[BOOKING LINK] – let's map out a plan"
```

Freelancers

TRIGGER: Comment "HIRE" on a portfolio post

- MESSAGE: "Hey [NAME]! Thanks for the interest – what kind of project did you have in mind?"
- LEAD CAPTURE: Project scope + email
- CTA: "[BOOKING LINK] – let's discuss details"

Local Businesses

TRIGGER: Comment "HOURS" or "LOCATION" on any post

- MESSAGE: "Hi [NAME]! We're located at [Address] and open [Hours]."
- LEAD CAPTURE: Email for local promotions
- CTA: "Want directions? [PRODUCT LINK]"

Quick Tip: Notice that every industry example still follows the same TRIGGER → MESSAGE → LEAD CAPTURE → CTA shape from Section 2. Once you know the shape, adapting it to your own industry is just swapping words.

SECTION 19 — 30-DAY AUTOMATION IMPLEMENTATION PLAN

Week 1 — Setup & Basic Automation

DAY	TASK
1	Create your ManyChat account and connect your Instagram/Facebook page. Check the current ManyChat interface/options for the connection steps.
2	Set up your main Welcome Message for first-time DMs.
3	Write down your top 3 automation goals (e.g., freebie delivery, FAQ, lead capture).
4	Build your first Comment-to-DM flow using Flow 1 (Free Guide) from Section 4.
5	Test the flow fully — trigger it yourself and walk through every step.
6	Set up 3 FAQ auto-replies from Section 6 (price, purchase, support).
7	Review Week 1: fix any broken links or messages you noticed during testing.

Week 2 — Comment-to-DM

DAY	TASK
8	Choose one more flow from Section 4 that matches an upcoming post or promotion.
9	Write your public comment reply and DM welcome message for it.
10	Build the resource-delivery step and attach your real link.
11	Add a lead-capture question (email) to the flow.
12	Publish the flow and post the matching content on Instagram/Facebook.
13	Monitor comments and confirm the automation is firing correctly.
14	Review Week 2: note which keyword/post got the most engagement.

Week 3 — Lead Capture & Follow-Up

DAY	TASK
15	Choose a lead capture blueprint from Section 5 (A, B, or C) that fits your needs.
16	Build the lead capture questions into your existing flows.
17	Set up your first 24-hour follow-up message using Section 10.
18	Set up a second follow-up (2-3 days later) for unresponsive leads.
19	Add tags to segment leads by interest or answer (e.g., "Interested," "Price Sent").
20	Test the full journey from comment → lead capture → follow-up as a new user.
21	Review Week 3: check how many leads reached the follow-up stage.

Week 4 — Optimization & Conversion

DAY	TASK
22	Add a Product Enquiry flow (Section 7) if you haven't already.
23	Add a Service Enquiry or Consultation flow (Section 8-9) if relevant to your business.
24	Review your CTA buttons — swap in 2-3 new options from the CTA Library (Section 13).
25	Add one more FAQ auto-reply based on a question you've actually been asked recently.
26	Test every button and link across all live automations (use the Section 15 checklist).
27	Review your keyword list (Section 11) — remove overlaps, add any missing ones.
28	Analyze which flow converted best this month, and note why.
29	Duplicate your best-performing flow and adapt it for a new offer or post.
30	Final review: run the Section 15 Build Checklist against every live automation.

Pro Tip: Don't try to build everything in this blueprint on Day 1. The 30-day plan is designed to layer complexity gradually — basic automation first, lead capture and follow-up second, optimization last.

SECTION 20 — QUICK REFERENCE CHEAT SHEET

Best Trigger Ideas

- Comment keyword on a specific post
- Any DM containing a keyword
- Button tap on a welcome message
- Story reply or reaction
- First-time message to your page

Best CTA Ideas

- "Send Me the Guide"
- "View Product"
- "Book a Call"
- "I'm Interested"
- "Ask a Question"

Lead Capture Ideas

- Ask for email only (fastest, simplest)
- Ask for name + email (better personalization)
- Ask a qualifying question before capturing contact info (best for services)

Follow-Up Timing Ideas

- 1 hour: check message was received
- 24 hours: first real follow-up
- 2-3 days: second follow-up with new angle
- 7 days: final no-pressure message

FAQ Ideas

- Price and what's included
- How to purchase
- How the product/service is delivered

- Support availability
- Beginner-friendliness

Conversion Ideas

- Give price directly instead of hiding it
- Always end a message with one clear next step
- Use urgency (expiry dates) only when genuinely true
- Follow up at least twice before giving up on a lead

Testing Checklist

- ☐ Trigger fires correctly
- ☐ Every button works
- ☐ Every link opens correctly
- ☐ Lead info is captured and saved
- ☐ Follow-up timing is correct
- ☐ Full conversation tested on mobile

Print or save this page — it's designed as your at-a-glance reference once your automations are live.

BONUSES

BONUS 1 — 50 CTA IDEAS

1. Get the Free Guide
2. Send Me the Checklist
3. Get Started
4. Grab My Freebie
5. Yes, Send It Over
6. I Want This
7. Claim My Spot
8. Show Me How
9. Get Instant Access
10. Send Me the Link
11. View Product
12. Get the Offer
13. Buy Now
14. See What's Included
15. Shop Now
16. Get [PRODUCT NAME]
17. Claim My Discount
18. See Pricing
19. Add to Cart
20. Unlock This Deal
21. I'm Interested
22. Tell Me More
23. I Need Help
24. Not Right Now
25. Maybe Later
26. Yes, That's Me
27. I Have a Question
28. Sounds Good
29. Learn More First
30. Book a Call

31. Schedule a Consultation
32. Check Availability
33. Reserve My Spot
34. Pick a Time
35. Book Now
36. Save My Seat
37. Register Now
38. Confirm My Booking
39. Reschedule
40. Ask a Question
41. Contact Support
42. Get Help
43. Talk to Someone
44. Report an Issue
45. Track My Order
46. Request a Refund
47. Chat With Us
48. Give Feedback
49. Yes, Still Interested
50. Continue Where I Left Off

BONUS 2 — 30 AUTOMATION TRIGGERS

1. Comment contains "GUIDE"
2. Comment contains "FREE"
3. Comment contains "INFO"
4. Comment contains "PRICE"
5. Comment contains "LINK"
6. Comment contains "BUY"
7. Comment contains "DISCOUNT"
8. Comment contains "COURSE"
9. DM contains "HELP"
10. DM contains "BOOK"
11. DM contains "DEMO"
12. First message ever sent to page
13. Button tap: "Get Started"
14. Comment contains "CHECKLIST"

15. Comment contains "TEMPLATE"
16. DM contains "OFFER"
17. Reply to a previous automated message
18. DM contains "DETAILS"
19. Comment contains "JOIN"
20. Comment contains "WEBINAR"
21. DM contains "CONSULT"
22. Comment contains "SHOP"
23. DM contains "SUPPORT"
24. DM contains "REFUND"
25. Button tap: "Yes"
26. Button tap: "No"
27. DM contains "STOP"
28. Story reply/reaction
29. Ad click (Click-to-Messenger campaign)
30. Comment contains "APPLY"

BONUS 3 — 25 FOLLOW-UP MESSAGES

1. Hi [NAME], just checking in — did you get a chance to look at [Topic]?
2. Hey [NAME], still happy to help if you have questions about [PRODUCT NAME].

19. "What if I have technical issues?" → Reach out to [SUPPORT EMAIL] and we'll sort it out fast.
20. "Can I cancel anytime?" → Yes, no long-term commitment required.

BONUS 5 — AUTOMATION TESTING CHECKLIST

- ☐ Trigger keyword fires from a real comment/DM
- ☐ Public comment reply appears correctly
- ☐ Welcome DM sends immediately
- ☐ Every button is linked to the correct next step

- ☐ Every link opens to the correct, live page
- ☐ Lead capture field saves to the correct custom field
- ☐ Delay timing on follow-ups is correct
- ☐ All placeholders have been replaced with real information
- ☐ Spelling and grammar checked in every message
- ☐ Full flow tested on a mobile device
- ☐ Flow tested by someone other than you (fresh eyes catch more)
- ☐ Automation is Published, not just saved as a draft

BONUS 6 — ONE-PAGE MANYCHAT FLOW PLANNER

Use this blank template to plan any new automation before you build it.

Automation Name: _____

Goal: _____

Trigger: _____

Keyword: _____

Opening Message:

CTA: _____

Lead Information Needed: _____

Follow-Up:

Final CTA: _____

Quick Tip: Print several copies of this planner, or keep it in a notes app — plan every automation on paper first, then build it in ManyChat. It's faster and prevents half-finished flows.

FINAL IMPLEMENTATION CHECKLIST

Before you consider your ManyChat automation "live and working," confirm every item below:

- ☐ ManyChat is connected to the correct Instagram/Facebook page
- ☐ At least one Comment-to-DM flow is built and tested (Section 3-4)
- ☐ Your top 5-10 FAQs are set up as auto-replies (Section 6)
- ☐ A lead capture step is included in every flow that needs one (Section 5)
- ☐ At least 2 follow-up messages are scheduled for unresponsive leads (Section 10)
- ☐ Your keyword list is finalized with no overlaps (Section 11)
- ☐ All placeholders ([NAME] , [PRODUCT LINK] , etc.) are replaced with real information
- ☐ Every button and link has been tested and works correctly
- ☐ You've walked through the entire conversation yourself, start to finish
- ☐ The automation is Published (not left as a draft)
- ☐ You've scheduled a recurring reminder to review performance and update flows monthly

You're ready. Everything in this blueprint is designed to be reused — duplicate a flow, swap the message and link, and you have a brand-new automation in minutes. Build one flow at a time, test it, and let it work for you.
