How to Read a Template Card

Every template follows the same layout so you can scan, copy and shoot fast.

Card element	What it tells you
Snapshot table	Objective, platform, format, duration, aspect ratio, hook, CTA
Timeline	Second-by-second scenes with the visual, the on-screen text and the voiceover line for each beat. Read the VO column top to bottom and you have the full copy-paste voiceover script.
Visual direction	The overall look and feel of the shoot
B-roll	Extra clips to film so you have cut-away options in the edit
Product placement	Where, when and how the product appears
Caption	A post caption to copy and personalise
Editing	Cuts, text timing, music and pacing notes
Customise	What to swap so the ad fits your brand
Example	A fully filled version for a fictional product

Placeholders: anything in `[square brackets]` gets replaced with your details. **Default spec:** 9:16 vertical, 1080 × 1920 px, 30 fps, captions on, text inside the safe zone (see File 10).

CATEGORY 1 — PROBLEM → SOLUTION ADS

Use when your buyer already feels the pain. The ad names the pain in their words, then shows your product as the way out.

V01 · The "Six Months Too Late" Ad

Objective	Conversions — turn a relatable regret into a purchase
Platform	Instagram Reels, TikTok, Facebook Reels
Format	Talking head + product B-roll
Duration	20 seconds
Aspect ratio	9:16
Hook	"I genuinely wish someone had shown me this six months ago."
CTA	"Link's right here if you want to skip the six months I wasted."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator close to camera, product held just below chin	I wish I found this 6 months ago…	"I genuinely wish someone had shown me this six months ago."
3–7s	Quick cut to the old frustrating way (messy drawer, failed attempt, cluttered screen)	What I was doing before 😞	"Because I was doing [old method] every single day and it was [pain in their words]."
7–13s	Creator unboxes or opens product, turns it to camera	Then I found [Product]	"Then I found [Product]. It [core function in one line]."
13–17s	Product in use, 2 quick angles	[Key result in 4–6 words]	"Now [specific result] — and it takes me [time]."
17–20s	Creator points to caption/link area, product in frame	Link below 👇	"Link's right here if you want to skip the six months I wasted."

Visual direction: Natural window light, creator at arm's length, casual clothes, real room behind (kitchen, desk, bathroom). No studio backdrop. Slight handheld movement is good.

B-roll: The "before" mess; hands opening the package; product close-up with label visible; product in use from above; a satisfied reaction (small smile, nod).

Product placement: Visible in the first frame (held low), hero moment at 7s, logo facing camera at least once for 1+ second, final frame includes product.

Caption: "Six months of [pain] and the fix was this simple 😩 If you're still doing [old method], this is your sign. [Product] → link in bio / tap Shop Now."

Editing: Cut every 2–3 seconds. Pop text on the exact word it matches. Lo-fi or trending low-volume track under VO (10–15% volume). Add a subtle zoom-in (105%) on the hook.

Customise: Swap "six months" for a timeframe that is honest for your customer. Replace the "before" clip with your audience's real pain. Keep the result specific (a number, a time, a feeling).

Example — "Solenne Barrier Cream" (skincare): "I genuinely wish someone had shown me this six months ago. I was layering three different moisturisers every night and my cheeks were still tight and flaky by lunch. Then I found Solenne Barrier Cream — one layer, that's it. Now my skin feels calm all day and my routine takes two minutes. Link's right here if you want to skip the six months I wasted."

V02 · The "Stop Doing This" Interrupt

Objective	Traffic / conversions — challenge a common habit
Platform	TikTok, Instagram Reels, YouTube Shorts
Format	Talking head with hand-signal interrupt
Duration	18 seconds
Aspect ratio	9:16
Hook	"If you're still [common habit], please stop — here's why."
CTA	"Try it the easy way — it's linked below."

Timeline

Time	Visual	On-screen text	Voiceover
0–2s	Creator holds palm to camera "stop" gesture	STOP doing this ✋	"If you're still [common habit], please stop."
2–6s	Re-enact the habit, slightly exaggerated	This = [negative consequence]	"It's the reason you keep [negative consequence]."
6–11s	Creator picks up product	Do this instead 👇	"Do this instead. [Product] [how it solves it in one sentence]."
11–15s	Demo shot, satisfying result	[Result] in [time]	"Same job, [benefit], zero [pain]."
15–18s	Creator nods at camera, product beside face	Linked below	"Try it the easy way — it's linked below."

Visual direction: Direct, confident energy. Creator centred, eye-level. Bright, clean room. Re-enactment can be slightly comedic.

B-roll: Wrong-way attempt, product macro, side-by-side result, hand gesture close-up.

Product placement: Enters at 6s as the "instead" answer; stays in frame to the end.

Caption: "Nobody warns you about this one 😬 Switched to [Product] and I'm not going back. Would you try it?"

Editing: Hard cut on "stop" with a quick record-scratch or pop SFX. Red ✕ sticker over the old habit, green ✓ sticker over the product.

Customise: Pick a habit your audience genuinely does. Keep the consequence honest and non-shaming — "It's not your fault, nobody tells you" softens it.

Example — "Kettlewise Gooseneck Kettle" (home): "If you're still boiling water in a saucepan for your pour-over, please stop. It's why your coffee tastes bitter one day and weak the next. Do this instead — Kettlewise heats to the exact temperature you pick and holds it. Same coffee, way more consistent, zero guessing. Try it the easy way — it's linked below."

V03 · The "Nobody Told Me" Confession

Objective	Awareness + consideration
Platform	TikTok, Instagram Reels
Format	Talking head, sitting (car, couch, bed)
Duration	25 seconds
Aspect ratio	9:16
Hook	"Nobody told me that [surprising truth] — so I'm telling you."
CTA	"Save this, and check out [Product] if you're dealing with the same thing."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator leaning in, candid framing	Nobody told me this 😤	"Nobody told me that [surprising truth] — so I'm telling you."
3–9s	Creator talking, cut to a relevant detail shot	I spent [time/money] on…	"I spent [time/money] trying [failed solutions] and nothing worked."
9–15s	Product appears in hand	The actual problem was [root cause]	"Turns out the real problem was [root cause]. That's what [Product] fixes."
15–21s	Using product, then reaction	[Before] → [After]	"After [timeframe], [honest result]."
21–25s	Creator to camera	Save this 📌	"Save this, and check out [Product] if you're dealing with the same thing."

Visual direction: Feels like a friend venting. Seated, relaxed, low-key. Car selfie framing works very well.

B-roll: Pile of failed products/tabs/receipts, product close-up, process shot, calm result shot.

Product placement: Revealed at the "root cause" moment so the product reads as the insight, not an advert.

Caption: "Wish this was common knowledge. What's something nobody told you about [topic]? 👇"

Editing: Keep it slightly longer shots (3–4s) — story pace. Burn-in captions word-by-word. Question in caption to invite comments.

Customise: The "surprising truth" must be true and specific to your niche. Pull it from customer reviews or support questions.

Example — "Stridewell Arch Insoles" (e-commerce/health): "Nobody told me that my knee pain after runs could start at my feet — so I'm telling you. I spent months buying new trainers and foam rolling every night. Turns out my arches were collapsing, and that's what Stridewell insoles support. After three weeks my runs feel noticeably easier. Save this, and check out Stridewell if you're dealing with the same thing."

V04 · The "Before You Buy Another One" Warning

Objective	Conversions — intercept buyers comparing options
Platform	Facebook Ads, Instagram Reels
Format	Creator standing over a pile of alternatives
Duration	22 seconds
Aspect ratio	9:16 (4:5 cut for Feed)
Hook	"Don't buy another [category] until you've seen this."
CTA	"Check it before you buy anything else — link below."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator gestures at a pile of old products	Don't buy another [category] yet ⚠️	"Don't buy another [category] until you've seen this."
3–8s	Pick up old items one by one, toss aside	Tried: ❌❌❌	"I've tried [option A], [option B], and the one everyone recommends."
8–14s	Product revealed from behind back	This is the one that stayed	"This is the only one I actually kept using. Here's why."
14–19s	2 features shown quickly	✓ [Feature 1] ✓ [Feature 2]	"[Feature 1], and [Feature 2] — which none of the others did."
19–22s	Product held to camera	Link below 👇	"Check it before you buy anything else — link below."

Visual direction: Tabletop or bed with products laid out. Top-down establishing shot, then creator framing.

B-roll: The pile top-down, each rejected item's flaw, product feature macros.

Product placement: Reveal from behind back at 8s for a "hero moment." Make sure it is visually distinct from the pile.

Caption: "Saving you the money I wasted 💸 [Product] is the only one that made the cut."

Editing: Quick 1-second cuts on the rejected items with a "whoosh" SFX. Checkmarks animate in one at a time.

Customise: Don't name or show competitor brands — use generic/unbranded items or blur labels. Focus on your differentiators.

Example — "Nimbra Insulated Bottle": "Don't buy another water bottle until you've seen this. I've tried the cheap one, the glass one, and the one everyone recommends. This is the only one I actually kept using. Here's why — it fits in my car cup holder, and the lid doesn't leak in my bag, which none of the others did. Check it before you buy anything else — link below."

V05 · The "Day That Broke Me" Story

Objective	Emotional connection → consideration
Platform	Instagram Reels, TikTok, Facebook
Format	Storytime talking head with re-enactment clips
Duration	30 seconds
Aspect ratio	9:16
Hook	"The day I finally snapped and fixed this for good…"
CTA	"If that was you this week, here's what I use."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator, exasperated expression	The day I finally snapped 😮‍💨	"The day I finally snapped and fixed this for good…"
3–10s	Re-enactment of the breaking-point moment	[Specific moment]	"I was [specific moment], and [thing went wrong] — again."
10–16s	Creator scrolling phone / researching	So I went looking…	"So I went looking for something that actually worked and found [Product]."
16–24s	Product in use, calm version of the same moment	Same situation. No stress.	"Now when [same situation] happens, [calm outcome]."
24–30s	Creator to camera, product in hand	If this was you this week 👇	"If that was you this week, here's what I use."

Visual direction: Two contrasting moods: the stressful moment (tighter framing, faster cuts) vs the calm moment (wider, slower, warmer light).

B-roll: Breaking-point re-enactment, phone scrolling, product unboxing, same scene redone calmly.

Product placement: Enters mid-story as the turning point. Repeat the same scene with the product for a direct contrast.

Caption: "We all have that one day 😂 Mine was [moment]. Tell me yours."

Editing: Colour-grade the stressful section slightly cooler, the resolved section warmer. Music shift at the turning point.

Customise: Use a real, specific moment your customers describe (reviews are gold here).

Example — "Tallyloop Invoicing App" (SaaS): "The day I finally snapped and fixed this for good… I was chasing a client for an invoice I couldn't even find in my own email — again. So I went looking for something that actually worked and found Tallyloop. Now when a payment's late, it sends the reminder for me and I can see every invoice in one screen. If that was you this week, here's what I use."

V06 · The "Three Things I Tried First" Ad

Objective	Consideration — show the product won a fair test
Platform	TikTok, Instagram Reels, YouTube Shorts
Format	List-style talking head
Duration	25 seconds
Aspect ratio	9:16
Hook	"I tried three things to fix [problem]. Only one worked."
CTA	"Number three is linked if you want it."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator holds up 3 fingers	3 things I tried for [problem]	"I tried three things to fix [problem]. Only one worked."
3–8s	Attempt #1 clip	1. [Attempt] ❌	"First, [attempt 1] — [why it failed]."
8–13s	Attempt #2 clip	2. [Attempt] ❌	"Then [attempt 2] — [why it failed]."
13–21s	Product in use	3. [Product] ✅	"Then [Product]. [What changed], and [second benefit]."
21–25s	Creator with product	Linked 👇	"Number three is linked if you want it."

Visual direction: Clean list feel. Numbers large and bold on screen.

B-roll: Each failed attempt, product hero shot, result.

Product placement: Always last — the payoff of the list.

Caption: "Save yourself the trial and error 🙌 Which one have you tried?"

Editing: Number text slides in from left. ❌ stamps on failures with a buzzer SFX; ✅ with a ding.

Customise: Failed attempts should be generic approaches (DIY hacks, "just try harder"), not named competitors.

Example — "Hearthly Sleep Mist": "I tried three things to fix my 1am brain. Only one worked. First, no phone after ten — lasted two nights. Then chamomile tea — nice, but I was still wide awake. Then Hearthly Sleep Mist on my pillow as part of a wind-down. It's become my 'switch off' cue and I actually look forward to bedtime now. Number three is linked if you want it."

V07 · The "Split-Screen Struggle" Ad

Objective	Conversions — visual before/after contrast
Platform	Instagram Reels, TikTok, Facebook Ads
Format	Split screen (top/bottom or left/right)
Duration	15 seconds
Aspect ratio	9:16
Hook	"Me doing [task] without [Product] vs with it."
CTA	"Which side are you on? Get yours below."

Timeline

Time	Visual	On-screen text	Voiceover
0–2s	Split screen: left = struggle, right = product	Without 😩 / With 😊	"Me doing [task] without [Product]… versus with it."
2–8s	Both sides play simultaneously	⏱️ [long time] vs ⏱️ [short time]	"Left side: [pain detail]. Right side: [easy detail]."
8–12s	Right side expands to full screen	[Main benefit]	"It's [benefit] — that's the whole review."
12–15s	Product close-up, end card	Get yours 👇	"Which side are you on? Get yours below."

Visual direction: Same person, same outfit, same location on both sides so the only difference is the product.

B-roll: Film the full task twice — once each way — from the same tripod position.

Product placement: Only on the "with" side; final full-screen frame is product.

Caption: "The difference is honestly embarrassing 😅"

Editing: Use Canva/CapCut split layout. Add small timer stickers counting on both sides. Optional light comedic music.

Customise: The task must be something visual (cleaning, styling, setting up, cooking, editing).

Example — "Pawpebble De-shedding Brush" (pets): "Me brushing my husky without Pawpebble… versus with it. Left side: fur everywhere and a very annoyed dog. Right side: one tidy clump and a dog who's actually enjoying it. It's faster and he doesn't run away — that's the whole review. Which side are you on? Get yours below."

V08 · The "Here's What Changed" Reflection

Objective	Trust + conversions for considered purchases
Platform	Facebook Ads, Instagram Reels, YouTube Shorts
Format	Calm talking head, walk-and-talk optional
Duration	30 seconds
Aspect ratio	9:16
Hook	"This changed the way I [daily activity] — and I didn't expect it to."
CTA	"If you've been on the fence, this is where I'd start."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator walking or seated, thoughtful	This changed how I [activity]	"This changed the way I [daily activity] — and I didn't expect it to."
3–10s	Creator, cut to old routine footage	Before: [old routine]	"Before, my [routine] looked like [honest description]."
10–18s	Product introduced naturally	I was sceptical 🤨	"I was honestly sceptical about [Product], but I tried it for [timeframe]."
18–26s	3 quick shots of new routine	What changed: 1… 2… 3…	"Three things changed: [change 1], [change 2], and [change 3]."
26–30s	Creator to camera	Where I'd start 👇	"If you've been on the fence, this is where I'd start."

Visual direction: Softer, reflective tone. Morning or golden-hour light. Walk-and-talk outdoors works for lifestyle products.

B-roll: Old routine, product on counter/desk, three "change" moments.

Product placement: Introduced with admitted scepticism — increases believability.

Caption: "Didn't expect a [category] to change my whole [routine] but here we are ✨"

Editing: Slower pace (3–4s cuts). Numbered "changes" appear as small text chips.

Customise: Choose three changes customers mention most. Keep them realistic.

Example — "Quillnote AI Meeting Notes" (SaaS): "This changed the way I run meetings — and I didn't expect it to. Before, I was typing notes, half-listening, and forgetting action items. I was honestly sceptical about Quillnote, but I tried it for two weeks. Three things changed: I actually make eye contact now, action items land in my inbox automatically, and I stopped re-watching recordings. If you've been on the fence, this is where I'd start."

CATEGORY 2 — PRODUCT DISCOVERY ADS

Use for cold audiences. The ad feels like a friend sharing a find, not a brand selling.

V09 · The "Had to Try It" Find

Objective	Awareness → traffic
Platform	TikTok, Instagram Reels
Format	Excited talking head + first use
Duration	18 seconds
Aspect ratio	9:16
Hook	"Okay, I found this and I *had* to try it."
CTA	"I'll leave it linked so you can find it too."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator holding product up, excited	I found this and HAD to try it 👀	"Okay, I found this and I had to try it."
3–7s	Close-up of product details	It's a [simple description]	"It's basically a [simple description] that [promise]."
7–13s	First use, real reaction	Wait… 😳	"Wait… okay, that's actually [honest reaction]."
13–18s	Creator with product	Linked for you 👇	"I'll leave it linked so you can find it too."

Visual direction: High energy but genuine. Spontaneous feel — like it was filmed the moment it arrived.

B-roll: Package on doorstep, peeling tape, product details, reaction close-up.

Product placement: Product is the star from frame one.

Caption: "Not me adding this to my daily routine already 😂 [Product]"

Editing: Punch-in zoom on the reaction. Keep a real reaction even if it's small — it reads as authentic.

Customise: Describe the product the way a friend would, not the way your website does.

Example — "Oatridge Protein Granola" (food): "Okay, I found this and I had to try it. It's basically granola with 20 grams of protein that doesn't taste like chalk. Wait… okay, that's actually really good — it's crunchy and not too sweet. I'll leave it linked so you can find it too."

V10 · The "POV: You Finally Found It" Ad

Objective	Awareness, relatability
Platform	TikTok, Instagram Reels, YouTube Shorts
Format	POV text overlay, minimal/no VO
Duration	12 seconds
Aspect ratio	9:16
Hook	On-screen: "POV: you finally found a [category] that actually [does the thing]"
CTA	On-screen: "Found it here 👇"

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	First-person view: hands reaching for product	POV: you finally found a [category] that actually [works]	(Trending audio, no VO)
3–8s	Using product, satisfying result	[Tiny detail that proves it]	—
8–10s	Creator's relieved face / happy gesture	Where was this all my life	—
10–12s	Product on surface, end card	Found it here 👇	—

Visual direction: First-person camera (phone held at chest), then flip to face for the reaction.

B-roll: POV hands, macro detail proving the claim, relieved reaction.

Product placement: Hands-on from frame one; end card with product name.

Caption: "The search is over 😮‍💨 #[category]"

Editing: Sync cuts to the beat of the trending audio. Text appears in a clean white box with rounded corners.

Customise: Choose a trending or royalty-free sound from the platform's commercial library if running as a paid ad.

Example — "Moverly Resistance Bands": Text: "POV: you finally found resistance bands that don't roll up your legs mid-squat" → close-up of fabric band staying in place → "Where was this all my life" → "Found it here 👇"

V11 · The "What's On My [Desk/Shelf] Right Now" Ad

Objective	Consideration — soft placement among other items
Platform	Instagram Reels, TikTok
Format	Walkthrough / "what I use" tour

Duration	25 seconds
Aspect ratio	9:16
Hook	"Here's what I've actually been using every day lately."
CTA	"The [Product] is the one everyone asks about — it's linked."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Wide shot of desk/shelf/bathroom counter	What I use every day (honestly)	"Here's what I've actually been using every day lately."
3–8s	Point at item 1 (non-competing)	1. [Everyday item]	"This [item] — boring but essential."
8–16s	Pick up your product, longer moment	2. [Product] ⭐	"This is the one I'd actually rebuy. It [benefit], and [detail]."
16–21s	Item 3 (non-competing)	3. [Everyday item]	"And this, because [short reason]."
21–25s	Back to your product	Most asked about 👇	"The [Product] is the one everyone asks about — it's linked."

Visual direction: Real, lived-in space. Tidy but not staged.

B-roll: Each item close-up, your product in use.

Product placement: In the middle of the list with extra screen time and a ⭐ marker; brought back at the end.

Caption: "Things I'd rebuy tomorrow 🛒 which one would you try?"

Editing: Rack-focus or tap-to-focus transitions between items.

Customise: Filler items should be complementary, never competitors.

Example — "DeskNest Monitor Riser" (home office): "Here's what I've actually been using every day lately. This notebook — boring but essential. This is the one I'd actually rebuy — DeskNest lifted my screen to eye level and the drawer hides all my cables. And this candle, because work-from-home needs a vibe. DeskNest is the one everyone asks about — it's linked."

V12 · The "Internet Made Me Buy It" Ad

Objective	Social proof + traffic
Platform	TikTok, Instagram Reels
Format	Talking head + screen of comments
Duration	20 seconds
Aspect ratio	9:16

Hook	"Everyone kept recommending this, so fine — I caved."
CTA	"Okay, the hype is fair. Linked below."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator holding product, playful eye-roll	Everyone kept recommending this 🙄	"Everyone kept recommending this, so fine — I caved."
3–7s	Screenshot-style overlay of 3 (real) customer comments	"[Real comment 1]" "[Real comment 2]"	"People kept saying [common praise]."
7–14s	Testing product live	Let's see…	"So I tested it. [Honest first observation]."
14–20s	Verdict to camera	Verdict: ✅	"Okay, the hype is fair. Linked below."

Visual direction: Playful sceptic energy. Comment overlays styled as simple rounded bubbles (not copying any app's UI).

B-roll: Unboxing, testing, verdict close-up.

Product placement: Held from frame one as the "caved" purchase.

Caption: "Peer pressure won and I'm not mad about it."

Editing: Comments pop in one at a time with a subtle notification-style sound.

Customise: Only use genuine customer comments/reviews with permission. Never invent quotes.

Example — "Lumora Lip Oil": "Everyone kept recommending this, so fine — I caved. People kept saying it's not sticky and actually lasts. So I tested it. Honestly — glossy, zero sticky feel, and still there after my coffee. Okay, the hype is fair. Linked below."

V13 · The "Didn't Know I Needed This" Ad

Objective	Awareness for new/novel products
Platform	TikTok, Instagram Reels, Facebook
Format	Talking head + demo
Duration	20 seconds
Aspect ratio	9:16
Hook	"This is the product I didn't know I needed until I had it."
CTA	"Honestly, grab one — you'll get it."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator shows product, slight confusion	Didn't know I needed this 🤔	"This is the product I didn't know I needed until I had it."
3–8s	"Explaining" it with hands	It's a [thing] for [situation]	"It's a [thing] for when you [specific situation]."
8–15s	Demo in the specific situation	Tiny thing. Big difference.	"Sounds small, but [specific benefit] — every single day."
15–20s	Creator with product	You'll get it 👇	"Honestly, grab one — you'll get it."

Visual direction: Everyday realism — the product in the exact niche situation it solves.

B-roll: The niche situation before, the demo, a satisfied moment.

Product placement: Center frame throughout.

Caption: "Small upgrade, weirdly life-changing 😂"

Editing: Light, upbeat track. Text chips for "tiny thing / big difference."

Customise: Spell out the specific use case — novelty products fail when the use case is vague.

Example — "Hookline Cable Clips": "This is the product I didn't know I needed until I had it. It's a little clip for when your charger keeps falling behind the desk. Sounds small, but I haven't crawled under my desk once since — every single day. Honestly, grab one — you'll get it."

V14 · The "Gatekeeping Is Over" Reveal

Objective	Awareness + engagement (shares, saves)
Platform	TikTok, Instagram Reels
Format	Whisper/secret-sharing talking head
Duration	15 seconds
Aspect ratio	9:16
Hook	"Okay, I've been keeping this one to myself… not anymore."
CTA	"You're welcome. It's linked."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Creator leans in close, hushed tone	Not gatekeeping anymore 🤫	"Okay, I've been keeping this one to myself… not anymore."
3–9s	Product reveal + quick use	My secret for [result]	"This is how I [result] — [Product]."
9–12s	Result shot	[Specific proof]	"[One specific proof point]."

Time	Visual	On-screen text	Voiceover
12–15s	Creator wink/smile	You're welcome 😊	"You're welcome. It's linked."

Visual direction: Intimate close framing. Playful tone.

B-roll: Reveal (pulled from a drawer/bag), result close-up.

Product placement: Dramatic reveal at 3s.

Caption: "Sharing my secret because you deserve it 🤍"

Editing: Slight vignette on the hook. Fast pacing.

Customise: Works best for products with a visible result (beauty, food, cleaning, style).

Example — "Fernwood Cold Brew Concentrate": "Okay, I've been keeping this one to myself… not anymore. This is how I make café-level iced coffee at home — Fernwood concentrate. Two tablespoons, milk, ice, done in thirty seconds. You're welcome. It's linked."

V15 · The "Honest Unboxing" Ad

Objective	Consideration — first-hand product proof
Platform	TikTok, Instagram Reels, YouTube Shorts
Format	Hands + face unboxing
Duration	25 seconds
Aspect ratio	9:16
Hook	"Let's open this together and I'll tell you exactly what I think."
CTA	"If you want to see it in person, it's linked."

Timeline

Time	Visual	On-screen text	Voiceover
0–3s	Package in hand, creator in frame	Honest unboxing 📦	"Let's open this together and I'll tell you exactly what I think."
3–9s	Opening packaging, hands close-up	First impression: [adjective]	"First, the packaging — [honest observation]."
9–17s	Pulling out product, showing details	[Detail 1] · [Detail 2]	"It's [weight/texture/size], and I love that [detail]."
17–22s	Quick first use	First try 👀	"First try… [honest reaction]."

Time	Visual	On-screen text	Voiceover
22–25s	Creator with product	Linked 👇	"If you want to see it in person, it's linked."

Visual direction: Clean surface, natural light, focus on hands and textures.

B-roll: Tape peel, tissue paper, product lift, texture macro.

Product placement: Continuous; logo shown during lift.

Caption: "Unboxing my new [product] — honest first impressions ⬇️"

Editing: ASMR-friendly — keep natural sound of packaging, lower music.

Customise: Include one minor honest note ("I wish it came in more colours") — it raises credibility.

Example — "Hearthly Soy Candle Trio": "Let's open this together and I'll tell you exactly what I think. First, the packaging — fully recyclable and it smells amazing already. The candles are heavy, wooden wicks, and I love that the labels are minimal. First try… that crackle is so cosy. Only wish there was a bigger size. If you want to see it in person, it's linked."

Caption: "Pros, cons and whether I'd rebuy 👇 no fluff."

Editing: 👍/👎 section headers as bold text chips. Minimal music.

Customise: The con should be real but minor (price, colour options, shipping time). Never fake a con.

Example — "Moverly Resistance Bands": "Here's what I actually think after using Moverly bands for a month. What I love: they don't roll up and the three levels actually feel different. What I didn't love: the carry bag is a bit

small. Would I rebuy? Yes — they're the only home workout gear I've used consistently. If that sounds like what you need, it's linked."

Editing: "Day X" label top-left in the same style each time. Page-flip or quick-cut transitions.

Customise: Only show results that are realistic within 7 days. For longer-term products, use 14/30-day versions.

Example — "Nimbra Hydration Bottle": "I used Nimbra every day for seven days. Day one: the time markers feel a bit bossy. Day three: I'm actually finishing my water by 3pm. 8–15s	Using it properly	[Reaction word]	"Oh — [genuine reaction and why]."
15–20s	Creator verdict	Rating: [X]/10	"Genuinely impressed. It's linked."

Editing: Minimal cuts. Big bold rating number at the end.

Customise: Use real first-time reactions from customers or team members new to the product.

Example — "Fernwood Cold Brew": "First time trying this — I haven't looked anything up. Okay, it smells like chocolate? Oh — that's smooth, not bitter at all, and I didn't add sugar. Eight out of ten, would've been ten with oat milk. Genuinely impressed. It's linked."

V21 · The Sceptic Turned Fan

Product placement: Enters when the mind-change happens.

Caption: "Humbled 😅 I was wrong about this one."

Editing: Snap zoom on "Then…" with a beat drop.

Example — "Tallyloop Invoicing App": "I was fully convinced this was going to be a waste of money. I mean — another subscription just to send invoices? Come on. Then I actually used it for a month, and the automatic reminders did the chasing for me. Clients paid faster without me writing a single awkward follow-up email. If you're sceptical like I was — try it and see."

Example — "Hearthly Linen Room Spray": "My mum noticed before I even told her." Mum: "Why does your flat smell like a hotel?" "It's Hearthly Linen spray. I've been using it for two weeks." "Link's below if you want someone to notice too."

V23 · The Review-Reading Reaction

Objective	Social proof + retargeting

Customise: Genuine reviews only; blur surnames unless you have permission.

Example — "Stridewell Insoles" (founder): "Reading your reviews of Stridewell because I'm emotional today. 'I'm a nurse on 12-hour shifts and my feet don't ache by the end anymore.' 'Bought for my dad, he asked me to order two more pairs' — that one got me. This is why we made it. Want to see what they're talking about? It's linked."

V24 · The "Still Using It" Long-Term Update

Objective	Retention proof + conversions

Visual direction: Show real wear — half-used bottle, scuffed case. It proves authenticity.

B-roll: Worn product, current use, the original clip.

Product placement: Product "after use" is the hero.

Caption: "The real test is whether you're still using it months later."

Editing: Picture-in-picture of old clip for 2–3 seconds.

Customise: Use a real timeframe. The "one thing to know" sets expectations and reduces refunds.

Example — "Solenne Barrier Cream": "Three months ago I said I'd try this. Here's the honest update. Yes, I'm still using it — second tub, actually. It stuck because my skin stopped feeling tight and I simplified my whole routine. One thing to know: a pea-size amount is enough, so don't overdo it. Still in my routine — linked if you want it."
