How to Adapt the Templates for 15 Industries (with Ready Examples)

How to Adapt Any Template in 4 Steps

1. **Swap the problem** — use the exact pain your customer describes (check reviews, DMs, forum threads).
2. **Swap the setting** — film where your customer lives the problem (bathroom, gym, desk, kitchen, car, shop floor).
3. **Swap the proof** — use the proof type your industry trusts (visual result, screen recording, customer clip, credentials, taste reaction).
4. **Swap the CTA** — match your buying process (shop, trial, book, visit, DM).

Each industry below includes **3 hooks**, **1 short UGC script**, **1 photo ad**, **1 video ad** and **1 CTA**. All brands are fictional.
