LAUNCH YOUR FIRST DIGITAL PRODUCT

THE STEP-BY-STEP ACTION CHECKLIST: FROM IDEA TO FIRST SALE

AQVANI.SHOP — DIGITAL PRODUCTS FOR SMARTER WORK & BUSINESS

SECTION 1 — QUICK START

HOW TO USE THIS CHECKLIST

This is not a book to read once and put away. It is a working tool.

- 1. Go section by section, in order — each one builds on the last.
- 2. Check off ☐ boxes the moment you finish a step. Momentum matters more than speed.
- 3. Fill in every blank field (product name, price, dates) as soon as you know the answer — don't leave it for "later."
- 4. Keep this file open next to you while you build. Treat it like a project manager, not a novel.

WHAT YOU NEED BEFORE STARTING

- ☐ A device to create your product (laptop, tablet, or phone)
- ☐ A free tool to build the product (Canva, Google Docs, Google Sheets, or Notion)
- ☐ 3–7 days you can realistically dedicate in short daily blocks (30–90 minutes)
- ☐ One idea, skill, or piece of knowledge you can turn into something useful
- ☐ A bank account or payment method to receive money (PayPal, Stripe, or your bank)

You do **not** need: a website, an audience, a logo, business registration, or design skills. All of that can come later.

RECOMMENDED COMPLETION PATH

- **Beginner path (recommended):** Complete every section in order, section 1 → 17.
- **Fast path (if you already have an idea):** Skip to Section 3 (Validation), then continue in order.
- **Relaunch path (you already sold something):** Start at Section 15 (After the Launch).

LAUNCH READINESS OVERVIEW

STAGE	SECTIONS	GOAL
Plan	1–4	Choose and define a sellable idea
Build	5–6	Create and package the product
Set up	7–10	Set up delivery, pricing, and your listing
Launch	11–14	Go live and get your first sale
Grow	15–17	Review results and improve

"DON'T TRY TO MAKE IT PERFECT" REMINDER

Your first version only needs to be **useful, clear, and honest**. Perfect is a version 2 problem. A finished simple product earns money. An unfinished perfect product earns nothing.

SIMPLE 7-DAY LAUNCH ROADMAP

DAY	FOCUS	SECTIONS
1	Pick and validate your idea	2–3
2	Define the product + outline	4–5
3	Create the first draft	5
4	Finish, design, and package	5–6
5	Set up delivery, pricing, and listing	7–9
6	Create images + finish pre-launch checks	10–11
7	Launch and promote	12–14

START HERE — MINI CHECKLIST

- ☐ I have read the Quick Start section
- ☐ I have the tools listed above ready
- ☐ I have picked a start date: _____
- ☐ I have picked a target launch date: _____
- ☐ I am ready to move to Section 2

SECTION 2 — DIGITAL PRODUCT IDEA

Goal: Leave this section with one specific, buildable product idea.

ACTION STEPS

- ☐ **Identify a problem people want solved.** Think about questions people ask you repeatedly, mistakes you see beginners make, or a task that takes people hours that you can simplify.
- ☐ **Identify a specific target customer.** Not "everyone" — one type of person. Example: "new freelance graphic designers," not "freelancers."
- ☐ **List your knowledge, skills, experience, and resources.**
 - Skills: _____
 - Work/life experience: _____
 - Tools you already know how to use: _____
 - Things people already ask you for help with: _____
- ☐ **Brainstorm 10 product ideas.** Don't filter yet — quantity first.
 1. _____
 2. _____
 3. _____
 4. _____
 5. _____
 6. _____
 7. _____
 8. _____
 9. _____

10. _____

☐ **Select the easiest product to create** from your list of 10 — not the most impressive, the most *achievable* in the next 7 days.

☐ **Define the transformation/result.** Finish this sentence: "After using this, the customer will be able to _____."

☐ **Define what the customer receives.** (file type, number of pages/items, bonuses)

☐ **Choose the product format.** Circle one: PDF guide · Template pack · Spreadsheet/tracker · Planner · Checklist/toolkit · Prompt pack · Canva template · Workbook · Swipe file · Notion template

☐ **Write the one-sentence product promise.**

"This [format] helps [target customer] achieve [result] without [common pain point]."

IDEA SCORECARD

Score each idea 1 (low) – 5 (high) in each column. Highest total wins.

IDEA	PROBLEM STRENGTH	AUDIENCE CLARITY	EASE OF CREATION	DEMAND POTENTIAL	USEFULNESS	DIFFERENTIATION	DELIVERY SIMPLICITY	TOTAL /35
1.								
2.								
3.								
4.								
5.								

Scoring guide: 1 = weak/unclear · 3 = decent · 5 = strong/obvious yes.

Winning idea (highest score): _____

☐ **DONE / NEXT STEP:** ☐ I have selected my one idea → Continue to Section 3.

SECTION 3 — IDEA VALIDATION

Goal: Confirm real people already want this before you spend time building it.

ACTION STEPS

☐ **Identify competitors.** Search your product idea + "template," "checklist," "guide," or "toolkit" on Etsy, Gumroad, Google, and Pinterest. List 3–5.

☐ **Search marketplaces** (Etsy, Gumroad, Payhip, Creative Market, Notion template galleries) for similar products.

☐ **Check customer reviews** on those competing products — read the 3-star and 4-star reviews specifically; they reveal what's missing.

☐ **Identify repeated customer problems** mentioned across multiple reviews or comments.

☐ **Search social media discussions** (Facebook groups, Reddit, TikTok comments, Instagram comments) for people asking about this problem.

☐ **Look for existing demand** — are people actively asking "does anyone have a template for..." or "how do I...?"

☐ **Identify gaps in competing products** — outdated, incomplete, overpriced, poorly designed, or missing beginner explanations.

☐ **Define your unique angle** — simpler, more beginner-friendly, more complete, better designed, more affordable, or more specific niche.

☐ **Validate the product promise** — does your one-sentence promise (Section 2) address a gap you just found? Adjust it if needed.

☐ **Decide whether to proceed, modify, or reject the idea.**

COMPETITOR RESEARCH TABLE

COMPETITOR / PRODUCT	PRICE	WHAT IT INCLUDES	TARGET CUSTOMER	STRENGTH	WEAKNESS	OPPORTUNITY FOR MY PRODUCT
1.						
2.						
3.						
4.						
5.						

VALIDATION DECISION

- ☐ **GO** — clear demand, clear gap, I can build this well.
- ☐ **MODIFY** — good idea, but I need to change the angle, format, or audience first: _____
- ☐ **STOP & CHOOSE ANOTHER IDEA** — return to Section 2 Idea Scorecard and pick the next-highest idea.
- ☐ **DONE / NEXT STEP:** ☐ My idea is validated → Continue to Section 4.
-

SECTION 4 — DEFINE THE PRODUCT

Goal: Turn your validated idea into a clear, buildable product plan.

ACTION STEPS

- ☐ Product name
- ☐ Subtitle
- ☐ Target customer
- ☐ Customer problem
- ☐ Desired outcome
- ☐ Product format
- ☐ Main features
- ☐ Product contents (list every item/page/file)
- ☐ Bonuses (optional but recommended — increases perceived value)
- ☐ Estimated creation time
- ☐ Final deliverables (exact files the customer will download)

PRODUCT BLUEPRINT

Product Name: _____

Subtitle: _____

Target Customer: _____

Problem: _____

Promise: _____

Format: _____

Main Deliverable: _____

Bonus: _____

Price: _____

Launch Date: _____

Callout: If you cannot fill in every line above in one sitting, your idea is still too vague. Go back and get specific before you start building.

☐ **DONE / NEXT STEP:** ☐ My Product Blueprint is complete → Continue to Section 5.

SECTION 5 — CREATE THE PRODUCT

Goal: Produce a finished, usable first version.

ACTION STEPS (IN ORDER)

- ☐ Create the product outline — list every section/page before writing content.
- ☐ Create the first draft — write/build without editing as you go.
- ☐ Organize the content — logical order, numbered steps, clear headings.
- ☐ Add practical examples — real scenarios, not just theory.
- ☐ Add worksheets/checklists/templates where appropriate — these boost perceived value the most.
- ☐ Create an attractive design — consistent fonts, colors, and spacing (Canva is enough).
- ☐ Check formatting — headings, spacing, alignment consistent throughout.
- ☐ Check spelling and grammar — read it aloud or use a free grammar checker.
- ☐ Test every link — every URL must open correctly.
- ☐ Test downloadable files — open each file on a different device than the one you built it on.
- ☐ Review the product from the customer's perspective — would a stranger understand it with zero help from you?
- ☐ Make final improvements based on that review.
- ☐ Export the final version — correct file format (usually PDF for guides, .xlsx/.csv for sheets, .pptx or Canva link for templates).

FINAL PRODUCT QUALITY CHECK

Rate each 1–5, or simply check when true:

- ☐ Useful — solves the stated problem
- ☐ Easy to understand — no confusing jargon
- ☐ Easy to use — customer knows what to do without asking questions
- ☐ Visually professional — consistent, clean design
- ☐ Error-free — spelling, grammar, broken links all checked
- ☐ Action-oriented — tells the customer what to *do*, not just what to *know*
- ☐ Worth the price — you would pay for this yourself
- ☐ **DONE / NEXT STEP:** ☐ My final product file is exported → Continue to Section 6.

SECTION 6 — PACKAGE YOUR DIGITAL PRODUCT

Goal: Turn your finished file(s) into a clean, professional delivery package.

ACTION STEPS

- ☐ Main product file
- ☐ Bonus files (if any)
- ☐ Instructions/read-me file — one page explaining how to use everything
- ☐ License/usage terms — state clearly if it's for personal use only or resale is allowed
- ☐ Thank-you page — a short "thank you for buying" file or page
- ☐ Support/contact information — an email address customers can reach
- ☐ File naming — clear, numbered, no vague names like "final_v3_new.pdf"
- ☐ Folder organization — one main folder, clearly labeled
- ☐ ZIP package — if delivering more than one file, zip it into a single download

DELIVERY PACKAGE CHECKLIST

Example structure:

```
01_Main_Product.pdf
02_Bonus_Template.pdf
03_Quick_Start.pdf
04_License.pdf
```

My package:

01_____

02_____

03_____

04_____

- ☐ **DONE / NEXT STEP:** ☐ My delivery package is complete and ZIPped → Continue to Section 7.

SECTION 7 — CHOOSE YOUR DELIVERY PLATFORM

Goal: Pick where you'll sell and deliver your product.

PLATFORM COMPARISON

PLATFORM	EASE OF SETUP	DIGITAL FILE DELIVERY	STORE CUSTOMIZATION	PAYMENT OPTIONS	FEES	BEGINNER FRIENDLINESS	MARKETING FEATURES
Gumroad	Very easy	Built-in, automatic	Limited	Card, PayPal	Flat % per sale	Excellent for total beginners	Basic email + discount codes
Payhip	Very easy	Built-in, automatic	Moderate	Card, PayPal	Free plan + % on paid plans	Excellent	Coupons, affiliates, upsells
Shopify	Moderate	Needs a digital-delivery app	Full control	Card, PayPal, more	Monthly fee + card fees	Moderate — best if scaling	Strong (apps, email, SEO)
WordPress + WooCommerce	Harder	Needs a plugin (e.g.	Full control	Card, PayPal,	Hosting cost +	Best for those who already have a site	Very strong, fully

PLATFORM	EASE OF SETUP	DIGITAL FILE DELIVERY	STORE CUSTOMIZATION	PAYMENT OPTIONS	FEES	BEGINNER FRIENDLINESS	MARKETING FEATURES
		WooCommerce Downloads)		more	plugin costs		customizable

***No platform is universally "best."** Choose based on how much setup time you have and whether you already own a website. If you want to be selling within the hour, choose Gumroad or Payhip. If you already run Aqvani.shop on WordPress or Shopify, use that.*

ACTION STEPS

- ☐ Create account
- ☐ Configure store (name, logo, basic info)
- ☐ Add payment method
- ☐ Configure digital delivery (automatic file delivery after purchase)
- ☐ Upload product
- ☐ Configure customer email (the confirmation/download email)
- ☐ Test checkout using a test or discount-to-zero purchase
- ☐ Test download from the confirmation email/page
- ☐ Test customer confirmation email — check it arrives and looks correct

MY PLATFORM SETUP

Platform: _____

Store URL: _____

Payment Method: _____

Delivery Method: _____

Customer Support Email: _____

- ☐ Create account
- ☐ Configure store
- ☐ Add payment method
- ☐ Configure digital delivery
- ☐ Upload product
- ☐ Configure customer email
- ☐ Test checkout
- ☐ Test download
- ☐ Test customer confirmation email
- ☐ **DONE / NEXT STEP:** ☐ My store is live and tested → Continue to Section 8.

SECTION 8 — PRICING

Goal: Set a price that reflects real value, not guesswork.

HOW TO THINK ABOUT PRICING

- **Customer value:** What result or time-savings does this deliver? A product that saves 10 hours of work is worth more than the hours it took you to make it.

- **Product depth:** More templates, more worksheets, more bonuses can justify a higher price — but only if they're genuinely useful, not padding.
- **Time saved:** Price partly reflects how much frustration or research the customer skips by buying this.
- **Problem solved:** A painful, urgent problem supports a higher price than a "nice to have."
- **Competitor pricing:** Use your Section 3 research table as your price range guide — don't price wildly outside it without a reason.
- **Product positioning:** A "quick win" checklist sits lower (\$7–\$19). A complete system or toolkit sits higher (\$19–\$49+).

MY PRICING PLAN

Regular Price: _____

Launch Price: _____

Discount: _____

Launch Period: _____

Bonus (if any): _____

Final Price: _____

PRICING CHECKLIST

- ☐ Research comparable products (reuse Section 3 table)
- ☐ Define perceived value (list of everything included + the result it delivers)
- ☐ Choose base price
- ☐ Choose launch price
- ☐ Decide whether to offer a launch discount
- ☐ Avoid underpricing purely because you are new — price the product, not your confidence
- ☐ **DONE / NEXT STEP:** ☐ My price is set → Continue to Section 9.

SECTION 9 — PRODUCT LISTING

Goal: Build a product page that clearly sells the result, not just the format.

ACTION STEPS

- ☐ Product title
- ☐ Subtitle
- ☐ Product thumbnail
- ☐ Product preview images
- ☐ Short description
- ☐ Problem statement
- ☐ Benefits
- ☐ What's included
- ☐ Who it's for
- ☐ Who it's not for
- ☐ Features
- ☐ Bonuses
- ☐ FAQ
- ☐ Price
- ☐ Call-to-action

- ☐ Refund policy
- ☐ Terms/license
- ☐ Contact/support information

- ☐ **DONE / NEXT STEP:** ☐ My product page copy is written and published → Continue to Section 10.

SECTION 10 — PRODUCT IMAGES

Goal: Create visuals that make your product look professional at a glance.

ACTION STEPS

- ☐ Main product cover
- ☐ Product mockup (shown on a laptop/tablet/phone frame)
- ☐ Inside-page preview (1–2 sample pages)

- ☐ Feature graphic (icons + short labels of key features)
- ☐ Benefits graphic (3–4 outcome bullet points)
- ☐ What's-included graphic (checklist-style visual of contents)
- ☐ Social-media promotional image

RECOMMENDED IMAGE DIMENSIONS

USE	RECOMMENDED SIZE
Website product listing	1000 × 1000 px (square) or 1200 × 800 px
Instagram post	1080 × 1080 px
Instagram Story/Reel	1080 × 1920 px
Pinterest	1000 × 1500 px
Facebook	1200 × 630 px
LinkedIn	1200 × 627 px

Tip: Use one Canva design and resize/duplicate it for each platform instead of designing from scratch each time.

- ☐ **DONE / NEXT STEP:** ☐ All images are created and uploaded → Continue to Section 11.

SECTION 11 — PRE-LAUNCH

Goal: Confirm everything works before announcing publicly.

PRE-LAUNCH CHECKLIST

- ☐ Product completed
- ☐ Files tested
- ☐ Checkout tested
- ☐ Payment tested
- ☐ Download tested
- ☐ Product page completed
- ☐ Images uploaded
- ☐ Pricing confirmed
- ☐ Policies added (refund/license)
- ☐ Email confirmation tested
- ☐ Social media posts prepared
- ☐ Launch offer prepared
- ☐ Tracking/analytics configured (platform analytics or a simple sales spreadsheet)

24-HOUR BEFORE LAUNCH CHECKLIST

- ☐ Do one final full checkout test as a real customer would
- ☐ Re-read the entire product page for typos
- ☐ Confirm the launch price is correctly set to go live

- ☐ Schedule or prepare your Day 1 launch post
- ☐ Tell 3–5 people personally that you're launching tomorrow
- ☐ Charge your phone / clear your calendar for launch morning
- ☐ Get a good night's sleep — launch day needs energy, not perfection
- ☐ **DONE / NEXT STEP:** ☐ Every pre-launch item is checked → Continue to Section 12.

SECTION 12 — LAUNCH YOUR PRODUCT

Goal: Go live and get eyes on your product.

LAUNCH DAY CHECKLIST

- ☐ Publish product
- ☐ Test live product page (as a stranger would see it)
- ☐ Publish announcement
- ☐ Share on social media
- ☐ Send launch message/email to your personal network
- ☐ Share the product's main benefit clearly
- ☐ Respond to questions quickly and personally
- ☐ Monitor traffic
- ☐ Monitor sales
- ☐ Record customer feedback

7-DAY LAUNCH PLAN

DAY	FOCUS	WHAT TO POST/DO
Day 1	Announcement	"It's live!" post with the product link and main promise
Day 2	Problem/solution	Post about the problem your product solves and why it matters
Day 3	Product demonstration	Screenshots/video walkthrough of what's inside
Day 4	Benefits	3–5 concrete benefits/outcomes, one post or carousel
Day 5	FAQ/objections	Answer the top 3 questions or hesitations buyers have
Day 6	Social proof/feedback	Share early customer feedback, reviews, or your own results
Day 7	Final launch reminder	Reminder that the launch price/bonus ends, with a clear deadline

- ☐ **DONE / NEXT STEP:** ☐ My 7-day launch plan is scheduled or complete → Continue to Section 13.

SECTION 13 — MARKETING CHECKLIST

Goal: Build a simple, repeatable content plan to keep driving traffic after launch week.

ACTION STEPS

- ☐ Create 5 educational posts
- ☐ Create 3 problem-focused posts
- ☐ Create 3 product demonstration posts
- ☐ Create 3 promotional posts
- ☐ Create short-form video ideas
- ☐ Create Pinterest content
- ☐ Create LinkedIn content
- ☐ Create Instagram content
- ☐ Create Facebook content
- ☐ Create email promotion

30 CONTENT IDEAS TO PROMOTE YOUR DIGITAL PRODUCT

Educational (teach something useful, related to your product's topic):

1. Share one tip from inside your product
2. Explain the #1 mistake beginners make in this area
3. Break down a step of your process as a mini-tutorial
4. Answer a common question your target customer asks
5. Share a "before you start" checklist related to your topic

Problem-focused (name the pain point):

1. Post about the frustration your product solves
2. Share a relatable "have you ever..." scenario
3. Post a myth vs. reality comparison
4. Share what happens if this problem goes unsolved
5. Ask your audience what their biggest struggle is with this topic

Demonstration (show the product):

1. Screen-recording flip-through of the product
2. Before/after using the product
3. "Here's exactly what's inside" carousel
4. Zoom in on one favorite page/template
5. Show how long it takes to get results using it

Benefit-driven:

1. List 5 outcomes the customer gets
2. Share a specific time-saved statistic ("saves you X hours")
3. Compare doing it manually vs. using your product
4. Highlight your best bonus
5. Share who this product is perfect for

Social proof:

1. Share a customer testimonial or DM
2. Share a screenshot of a sale/review
3. Share your own results using your own method
4. Repost a customer's usage of the product (with permission)
5. Share a "why I made this" personal story

Promotional (direct offer):

1. Countdown post for launch price ending
2. Limited bonus announcement
3. Direct "link in bio, here's what you get" post
4. FAQ post answering objections
5. Simple reminder post: "In case you missed it..."

☐ **DONE / NEXT STEP:** ☐ My content calendar is built for the next 2 weeks → Continue to Section 14.

SECTION 14 — FIRST SALE CHECKLIST

Goal: Get your first real customer.

ACTION STEPS

- ☐ Tell your existing network (friends, family, coworkers, past clients)
- ☐ Share the product publicly on your main social platforms
- ☐ Contact relevant communities where promotion is allowed (check the rules first)
- ☐ Publish educational content related to your topic
- ☐ Demonstrate the product in action (screenshots/video)
- ☐ Offer an introductory launch price if appropriate
- ☐ Ask early customers for honest feedback
- ☐ Collect testimonials where permitted
- ☐ Improve the product based on feedback received

***Be realistic:** There is no guaranteed first sale. What is guaranteed is that showing up consistently, in front of the right audience, with a clear offer, dramatically increases your odds. Most first sales come from people who already know you — start there.*

☐ **DONE / NEXT STEP:** ☐ I have my first sale, or a full week of consistent outreach logged → Continue to Section 15.

SECTION 15 — AFTER THE LAUNCH

Goal: Turn early results into a better product and steady sales.

ACTION STEPS

- ☐ Review traffic
- ☐ Review product-page views
- ☐ Review conversion rate if available
- ☐ Review sales
- ☐ Review customer questions
- ☐ Review refund requests
- ☐ Identify weak points
- ☐ Improve product page
- ☐ Improve product preview images
- ☐ Improve offer
- ☐ Add a useful bonus

- ☐ Create version 2
- ☐ Continue marketing consistently
